

# BSOL

## Online Standards Database

Access thousands of worldwide standards and publications relevant to your business

**bsi.**

...making excellence a habit.™

## How do you manage

your companies Standards and Regulations library for the systems you implement and the products that you sell?

## Are you tired of

1. Managing and keeping hard copy libraries up to date?
2. Looking through the internet to find the standard you seek?
3. Pay too much for Standards?

## Would you be interested in

an online website that would enable you to:

1. Buy ISO, International Standards (IEC), European Standards (EN), British Standards (BS), Private Standards (PAS) and books?
2. Buy a packaged community of standard by particular industry sector i.e. – Sustainability, Medical Devices, Food, Construction, Automotive, Risk etc.?
3. Auto Alert update for changes in standards?
4. Demonstrate to your clients to have a system in place to make sure you keep updated with relevant standards, changes etc.?

## Do you want to

1. Ensure that you are using an up to date and genuine version of a standard?
2. Have the option to share your documents with colleagues around the business?
3. Fit your compliance requirement?

# Why choose an online service?

1

Tailor made collections from as little as 10 standards

2

Get instant online access to standards and related documents from anywhere at any time (tablet compatible)

3

Instant download in PDF format of the standards you need

4

Share your documents with colleagues around the business

5

Confidence you are using the latest genuine standards with daily updates and a personalized alerting service.

6

Much cheaper than managing hard copy collections of standards

## How will you get access to your list of standards?

Access to your standards will be through an online database of standards, British Standards Online (BSOL) – all available in English.

It's available 24/7 and revised every day so you'll always be up to date. It contains the entire British National (BS) and European (EN) collections as well as international (ISO/IEC) sets of standards.

# Certification Information Modules

Build your own module of 10 standards or pick from our most popular 10 standards below:

Quality Management		
1	BS EN ISO 9000:2005	Quality management systems. Fundamentals and vocabulary
2	BS EN ISO 9001:2008	Quality management systems. Requirements
3	BS EN ISO 9004:2009	Managing for the sustained success of an organization. A quality management approach
4	BS ISO 10001:2007	Quality management. Customer satisfaction. Guidelines for codes of conduct for organizations
5	BS ISO 10002:2004	Quality management. Customer satisfaction. Guidelines for complaints handling in organizations
6	BS ISO 10004:2012	Quality management. Customer satisfaction. Guidelines for monitoring and measuring
7	BS ISO 10005:2005	Quality management systems. Guidelines for quality plans
8	BS ISO 10018:2012	Quality management. Guidelines on people involvement and competence
9	BS EN ISO 19011:2011	Guidelines for auditing management systems
10	PAS 99:2012	Specification of common management system requirements as a framework for integration

Environmental Management		
1	BS EN ISO 14001:2004	Environmental management systems. Requirements with guidance for use
2	BS EN ISO 14004:2010	Environmental management systems. General guidelines on principles, systems and support techniques
3	BS EN ISO 14050:2010	Environmental management. Vocabulary
4	BS EN ISO 19011:2011	Guidelines for auditing management systems
5	BS EN ISO 14006:2011	Environmental management systems. Guidelines for incorporating ecodesign
6	BS EN ISO 14045:2012	Environmental management. Eco-efficiency assessment of product systems. Principles, requirements and guidelines
7	PD ISO / IEC TS 17021-2:2012	Conformity assessment. Requirements for bodies providing audit and certification of management systems. Competence requirements for auditing and certification of environmental management systems
8	BS 8555:2003	Environmental management systems. Guide to the phased implementation of an environmental management system including the use of environmental performance evaluation
9	PAS 2050:2011	Method for assessing the life cycle greenhouse gas (GHG) emissions of goods and services
10	PAS 99:2012	Specification of common management system requirements as a framework for integration

Health and Safety Management		
1	BS OHSAS 18001:2007	Occupational health and safety management systems. Requirements
2	BS OHSAS 18002:2008	Occupational health and safety management systems. Guidelines for the implementation of OHSAS 18001:2007
3	BS 18004:2008	Guide to achieving effective occupational health and safety performance
4	PAS 1010:2011	Guidance on the management of psychosocial risks in the workplace
5	BS EN 1540:2011	Workplace exposure. Terminology
6	BS EN ISO 13943:2010	Fire safety. Vocabulary
7	BS EN ISO 9000:2005	Quality management systems. Fundamentals and vocabulary
8	BS EN ISO 9001:2008	Quality management systems. Requirements
9	BS EN ISO 19011:2011	Guidelines for auditing management systems
10	PAS 99:2006	Specification of common management system requirements as a framework for integration

Environmental Management		
1	BS ISO/IEC 20000-1:2011	Information technology. Service management. Service management system requirements
2	BS ISO/IEC 20000-2:2012	Information technology. Service management. Guidance on the application of service management systems
3	BS ISO/IEC 20000-3:2012	Information technology. Service management. Guidance on scope definition and applicability of ISO/IEC 20000-1
4	PD ISO/IEC TR 20000-4:2010	Information technology. Service management. Process reference model
5	PD ISO/IEC TR 20000-5:2010	Information technology. Service management. Exemplar implementation plan for ISO/IEC 20000-1
6	BS ISO/IEC 27013:2012	Information technology. Security techniques. Guidance on the integrated implementation of ISO/IEC 27001 and ISO/IEC 20000-1
7	BS EN ISO 19011:2011	Guidelines for auditing management systems
8	BS EN ISO 9000:2005	Quality management systems. Fundamentals and vocabulary
9	BS EN ISO 9001:2008	Quality management systems. Requirements
10	PAS 99:2006	Specification of common management system requirements as a framework for integration

## Business Continuity Management

1	BS ISO 22301:2012	Societal security. Business continuity management systems. Requirements
2	BS ISO 22313:2012	Societal security. Business continuity management systems. Guidance
3	PD 25111:2010	Business continuity management. Guidance on human aspects of business continuity
4	PD 25666:2010	Business continuity management. Guidance on exercising and testing for continuity and contingency programmes
5	PD 25222:2011	Business continuity management. Guidance on supply chain continuity
6	BS ISO/IEC 27031:2011	Information technology. Security techniques. Guidelines for information and communication technology readiness for business continuity
7	BS 25999-1:2006	Business continuity management. Code of practice
8	BS 25999-2:2007	Business continuity management. Specification
9	BS 25777:2008	Information and communications technology continuity management. Code of practice
10	PAS 99:2006	Specification of common management system requirements as a framework for integration

## Health and Safety Management

1	BS OHSAS 18001:2007	Occupational health and safety management systems. Requirements
2	BS OHSAS 18002:2008	Occupational health and safety management systems. Guidelines for the implementation of OHSAS 18001:2007
3	BS 18004:2008	Guide to achieving effective occupational health and safety performance
4	PAS 1010:2011	Guidance on the management of psychosocial risks in the workplace
5	BS EN 1540:2011	Workplace exposure. Terminology
6	BS EN ISO 13943:2010	Fire safety. Vocabulary
7	BS EN ISO 9000:2005	Quality management systems. Fundamentals and vocabulary
8	BS EN ISO 9001:2008	Quality management systems. Requirements
9	BS EN ISO 19011:2011	Guidelines for auditing management systems
10	PAS 99:2006	Specification of common management system requirements as a framework for integration

## Food Safety Management

1	BS EN ISO 9000:2005	Food safety management systems. Requirements for any organization in the food chain
2	BS EN ISO 9001:2008	Prerequisite programmes on food safety. Food manufacturing
3	BS EN ISO 9004:2009	Prerequisite programmes on food safety. Farming
4	BS ISO 10001:2007	Traceability in the feed and food chain. General principles and basic requirements for system design and implementation
5	BS ISO 10002:2004	A quality management system to ensure the integrity and traceability of primary products in the agri-food chain
6	BS ISO 10004:2012	Prerequisite programmes for food safety in food retail. Specification
7	BS ISO 10005:2005	Prerequisite programmes and design requirements for food safety in the manufacture and provision of food packaging
8	BS ISO 10018:2012	Quality management systems. Fundamentals and vocabulary
9	BS EN ISO 19011:2011	Quality management systems. Requirements
10	PAS 99:2012	Specification of common management system requirements as a framework for integration

# A day in the life

5am

## Alarm clock

safety standard for household and similar electrical appliances

noon

## Phone call to mum

compliance standard for mobile phones and restrictions for exposure to electromagnetic fields

6pm

## Withdraw cash

standard for magnetic strip of bank cards

10pm

## Dinner

standard to protect against food contamination

6am

## Gym session

standard for fire safety requirements for gymnasium equipment

1pm

## Lunch

food safety guidance to manufacturers

7pm

## Bus home

standard for the cleanliness of components for road vehicles

11pm

## ID to get into bar

IT standard for personal identification

7am

## Toaster

standard measuring the performance of electric toasters

2pm

## Meeting with CSR team

energy management standard

8pm

## Wash and dry hair

safety standard for electrical equipment including hair dryers

Midnight

## Taxi home

standard for electronic taximeters

8am

## Brush teeth

dentistry standard for manual toothbrushes

3pm

## Call from angry customer

code of practice for customer service

9pm

## Taxi to restaurant

standard for traffic control equipment

1am

## Bed

textile standard for manmade fibres

9am

## Train travel

standard for train communication network

4pm

## Emails to clients

standard securing email and electronic messages

10am

## Board presentation

IT standard for computer graphics and image processing

5pm

## Fire alarm

code for fire safety engineering and risk assessment

11am

## Coffee with clients

standard for manual and machine coffee sieving

### British Standards Institution

23rd Floor, Cambridge House, TaiKoo Place,  
979 King's Road, Island East, Hong Kong

T: +852 3149 3300  
E: [hk@bsigroup.com](mailto:hk@bsigroup.com)  
[www.bsigroup.hk](http://www.bsigroup.hk)

### The importance of standards

Standards are involved in virtually every aspect of modern life – from the moment your alarm clock sounds to the time your head hits the pillow. Without them, ships would sink, planes would fall from the sky, food could poison you and life as we know it would be chaos.

Standards set frameworks for life, measures for health and safety and act as an intervention to accelerate enterprise. Consumers all over the world benefit from these standards, assured in the knowledge that the product or service they are investing in is safe, and comes with a level of expected quality.

BSI, the leading business standards company, has, for more than a century, been ensuring that quality isn't compromised, that standards don't slip and that the organizations it works with strive for excellence instead.
