# Why Train with BSI

## Why Train with BSI

We understand that business success starts with people and we have assessed thousands of businesses, so we can genuinely benchmark performance. We have also trained many auditors who carry out these assessments so we can take you from beginner to certification to expert quickly. Wherever you are on your learning journey, we can tailor training to you and your business.

## Our Tutor

Turn our experience into your expertise with industry leading professionals. Our tutors are recognized as leader in their field, offering a first-class learning experience. They are trained to understand and meet your different learning needs, and they have years of industry experience.

## Our Approach

Within our training courses we used accelerated learning techniques to help you progress naturally and quickly. We encourage interaction and collaboration because the more involved you are, the more positive the outcome. We also keep the course varied and put your learning in context to give you an enjoyable, successful and satisfying experience.

## Types of Training

### In-house Training

An in-house training course is one that can be held at your facility or at our premises and is open only to your employees. Training students at your facility eliminates travel expenses and additional time away from the office.

### Public Training

A public training course takes place in a pre-determined, designated location and is available to anyone who registers. This type of training is a convenient, low-cost way to send a small number of employees to learn. Attendees are away from office distractions and benefit from interacting and networking with people from other organizations.

## Our Certificate

BSI certificate is recognised throughout the world as a mark of expertise, quality and integrity where some of our courses are independently certified by CQI and IRCA, the auditor training certification body.

# BSI Registered courses for RTTP

## What is RTTP?

Reindustrialisation and Technology Training Programme (RTTP) is a funding scheme under the Innovation and Technology Fund that subsidises local companies 2/3 of the training cost to train their staff in advanced technologies, especially those related to "Industry 4.0". Each company is subject to a funding ceiling of HK\$500,000 in each financial year at the course commencement date. Companies should contribute no less than one-third of the actual training cost. There is no limit on the number of eligible trainees from each company for each training course. Learn more: <https://rttp.vtc.edu.hk/>
