

# Certified Information Privacy Professional Europe (CIPP/E®) training course

## Essential information about the course

As access to information across multiple channels increases, the need to manage privacy of personal and corporate information becomes more important. With our Certified Information Privacy Professional Europe (CIPP/E) training course, you can get the knowledge to help you can stay ahead of the current data protection legislation and confidently manage privacy for your business.

Our two-day Certified Information Privacy Professional Europe course is based on data protection laws and industry best

## Course outline

Over two days you will work through the following topics:

- Introduction to European data protection  
Learn about the origins of privacy in Europe, the European regulatory institutions and the legislative framework for current EU data protection law at both the EU and state level.
- European data protection law and regulation  
Explore data protection concepts and principles, application of the law, legitimate processing criteria, information provision obligations, data subject rights, confidentiality and security, notification requirements, supervision and enforcement and international data transfers.
- Compliance with European data protection law and regulation  
Examine the employment relationship, surveillance activities, marketing activities, internet technology and communications, and outsourcing.

Level **1** **2** **3** **4**

practices that organization's need to comply with to manage privacy. You will learn about models for privacy enforcement, key privacy terminology and practical concepts for protecting personal data and data flows between different countries.

This course will prepare you with the knowledge and skills to complete the International Association of Privacy Professionals (IAPP) CIPP/E exam, which will give you Certified Information Security Manager status.

Upon successful completion of this course, you'll receive a BSI certificate.

To achieve certified status, you will need to complete the IAPP CIPP/E exam. Please note the cost is included in the course; however, you will need to book your exam via the IAPP website.
