

Enterprise Training Solutions (ETS)

Find out how BSI can support your business with enterprise-wide training solutions.

Operating in over 190 countries, BSI's industry experts have developed an unrivalled portfolio of courses to support your entire organization.

As the creator of the world's leading standards we offer the most comprehensive suite of management systems and business improvement training aimed at empowering your people, at any level, to increase productivity and enhance business performance.

We'll work in partnership with you to identify your training needs and deliver a programme to meet them.

The BSI Training Academy can deliver high-quality training solutions to your whole organization, globally

Our Capabilities:

Our expertise, scale and reach means that we can support the training of your entire organization. In 2018 we trained over 212,000 people. And our clients include:

50% of the Fortune 500
84% of the FTSE 100
81% of the Nikkei 225 Index

Choose the right format for you

Live
Online Training

Join an expert tutor in a live "virtual" online classroom. Choose a dedicated classroom for your organization or share it with other delegates. We are following local government guidelines on running training courses in public or on-site premises - we'll let you know as soon as our face-to-face training can resume.

Classroom
based-training

Choose a date and venue near you, joining delegates from other companies.

On Site at
your
Premises

The same high-quality training delivered face-to-face in your location.

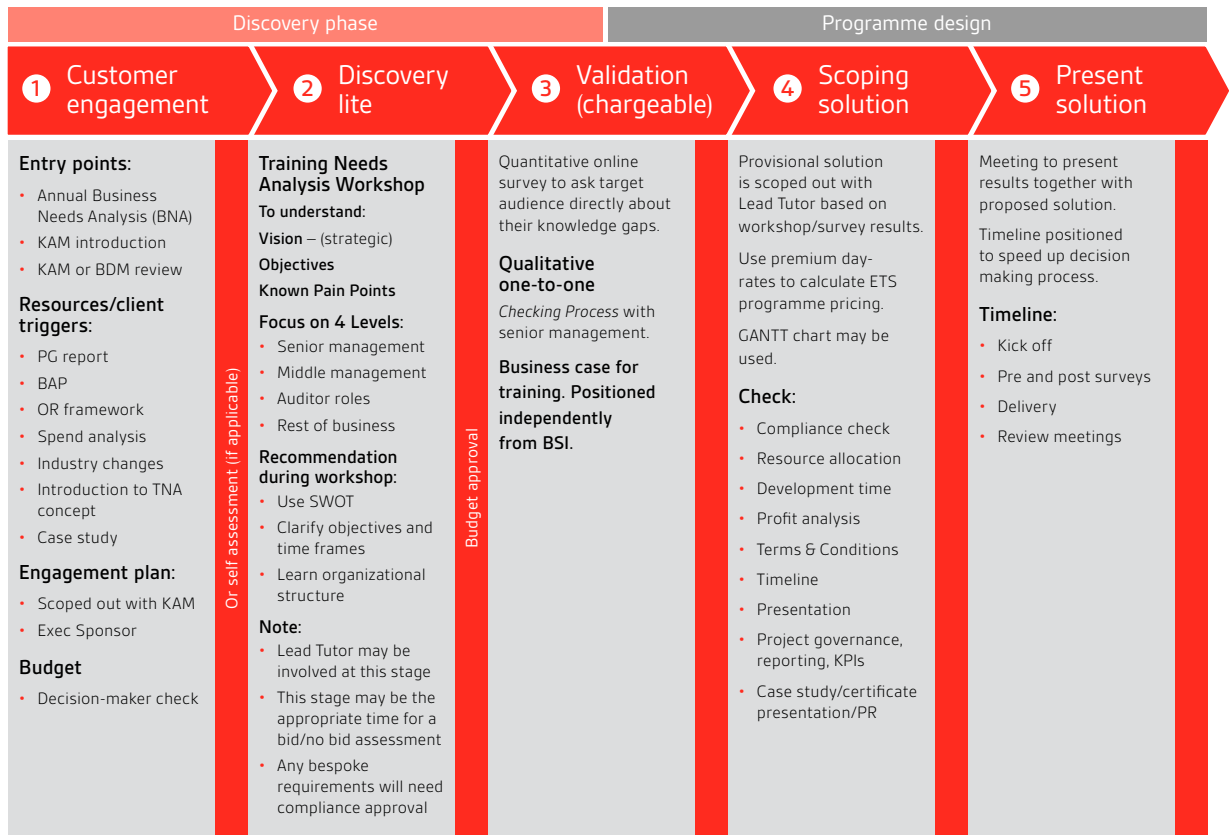

Online in
your own

ETS Process flow

- The steps and phases outlined here and on the following page will help guide you to the right solution for your client.
- Client size, location(s), needs and duration will all be factors in the design of your enterprise training solution.
- You may not need all these steps – it will depend on the size and scope of the opportunity.

Or self assessment (if applicable)

Budget approval

Change order evaluation

Why choose an enterprise training solution?

An enterprise-wide training solution can help with a number of challenges including:

- **Managing compliance** – for new, existing and transitioning standards, or permits
- **Managing talent** – development programmes
- **Maintaining the skills base** – continual training to manage personnel changes
- **Demonstrate continual improvement** – training programme aligned to strategy
- **Managing change** – new leadership, changing structures, strengthening or changing culture, acquisitions and mergers, right-sizing, managing growth
- **Embedding values** – culture, soft skills, communications and alignment
- **Improving best practice** – reducing costs and improving the working environment
- **Improving efficiency and reducing waste** – increasing productivity and performance
- **Organizational resilience** – business continuity, disaster recovery and incident management

At the BSI Training Academy we will create a continual improvement training programme that is aligned to your strategy.

Why an enterprise-wide training solution?

1. Manage compliance
2. Manage talent
3. Maintain your skills base
4. Demonstrate continual improvement
5. Manage change
6. Embed core values
7. Improve best practice
8. Improve efficiency and reduce waste
9. Develop your organization's resilience

What are the benefits?

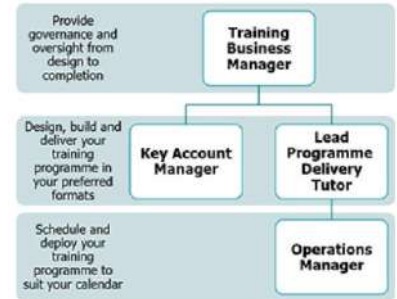

1. Meet your strategic and tactical objectives
2. Deployed using accelerated learning techniques
3. Delivered by our inspiring tutors
4. Giving you excellent learning results and the confidence to immediately deploy new skills in your organization
5. Part of a long-term organizational competency programme

Why Choose BSI?

1. Our partnership approach means we look at your needs and help you identify how to solve them
2. BSI has helped to shape standards for many years. Our experts know standards inside out, so you benefit from our expertise when you train with us
3. Our excellent tutors are regularly rated over 9 out of ten by our delegates

You will have dedicated team who:

- Understand your organization's training needs – a true partner
- Are experts in delivering programmes in your industry/sector
- Have deep management systems and performance improvement experience
- Deliver with passion unsurpassed training and development
- Create a training programme configured to your unique requirements

Connected Learning Live Internal Auditor ISO 9001:2015

"Bahan pelatihan cukup mudah dipahami, Pemateri memahami materi dengan baik dan mampu memberikan penjelasan serta menjawab pertanyaan peserta dengan jelas"

PT. Pengembang Pelabuhan Indonesia

Connected Learning Live Requirement ISO 17025

"Sangat berguna untuk implementasi di tempat kerja khususnya di Laboratorium"

PT. Pertamina Indonesia

In-House Training Requirement and Implementation ISO 45001:2015

"Pemaparan yang lugas dan mudah di mengerti, tepat sasaran. Terima kasih BSI"

Badan Siber dan Sandi Negara (BSSN)

Type of Training Package

1. Best Practice programme

Combining the right training and support services, we help you invest in your people.

Upskill your teams so they can get the most out of your management systems with our Best Practice Programme. From planning through to implementation and ongoing audits, your teams will be confident to drive continual improvements so it delivers value for your business

What is Best Practice?

Best Practice is a systematic approach of knowledge and skills development. It ensures an organization has the internal expertise to effectively implement change and improve performance.

What does our Best Practice programme include?

Our Best Practice programmes has two main phases – pre and post implementation.

This ensures you have the right knowledge to plan your system appropriately and then move on to learn audit skills to conduct internal audits that support with ongoing monitoring of your system.

Both phases involve our training and support services, as well as implementation activities where you embed your learning and respond to any gaps identified. By working with us, your teams will learn from our experts so they feel confident to implement your management system and ensure it continually improves.

Phase one: pre-implementation

Phase one: post-implementation

What are the benefits?

1. In-house expertise
2. Enhanced flexibility and convenience
3. Better engagement from your teams
4. Added value to your organization

Our Best Practice Programme

1. ISO 9001 Quality Management System
2. ISO 14001 Environmental Management System
3. IATF 16949 Automotive Quality Management System ISO
4. 45001 Occupational Health & Safety Management System
5. ISO 27001 Information Security Management System ISO
6. 22000 Food Safety Management System
7. ISO 37001 Anti Bribery Management System

Type of Training Package

2. Diploma training programme

A package to build your expertise

This program will help your company become an expert in the field of implementation and audit of the Quality Management System. This program provides a holistic approach to understanding starting from the requirements of standards, implementation and auditing.

This program consists of classroom training by BSI experts and practices based on the typical of each organization, focus group discussions, case studies, and ends with an evaluation of each stage of the curriculum.

It is expected that participants who have completed the curriculum in this program become experts in the application and audit of the Quality Management System.

Participants will receive a certificate with BSI license for each curriculum and CQI/IRCA for Lead Auditor as well as diploma certificate if they have completed all programs

How will you benefits?

In-house knowledge

Your team will develop the skills to implement and maintain ISO 9001 in-house, which can help to reduce reliance on external consultants and boost operational resilience.

Increased resilience

By training your project team as a whole, you'll ensure the continuity of expertise for your organization if people leave or are promoted.

Deeper insight

Our gap assessment will help you identify any major gaps or weaknesses in your approach following the programme, allowing a deeper insight into what changes and improvements need to be made.

Added value

Rather than attending each course individually, our combined solution offers a more cost effective approach saving you time and money - with the added convenience of being trained at a location of your choice.

A more convenient approach

You can choose which days to hold each training session, whether its 5 consecutive days or split over a few weeks, you'll learn at a pace that suits you.

Avoid costly mistakes

By bringing together different levels and teams across the organization, you'll embed effective performance processes and maximize the benefits of the standard.

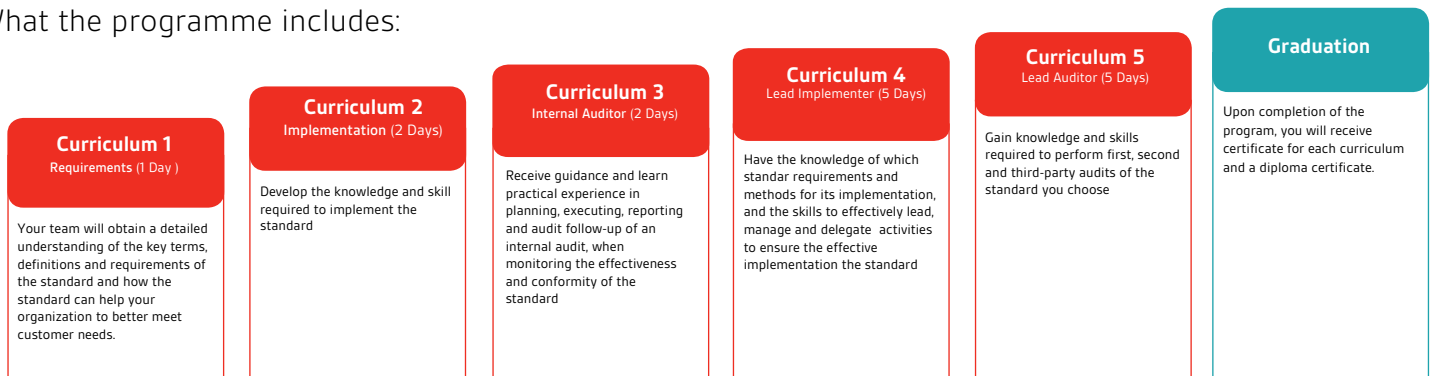

Enhanced flexibility

Training a project team in implementing and auditing a standard means greater flexibility in allocating implementation and auditing tasks - reducing reliance on one or two team members.

Better engagement

Engage with colleagues from different departments and levels. This encourages team work and provides a platform where ideas can be bounced off one another. You'll also increase awareness and understanding of each other's roles, as well as staff morale.

What the programme includes:

The period of this diploma program is one semester (6 months). If the number of participants from one organization meets the minimum of 10 people, the program period can be adjusted based on the organization's request.
