

BSI Training Academy

ISO 50001:2018 **Requirements** training course

Essential information about the course

Our one-day ISO 50001:2018 requirements course uses an activity-based, delegate-centered approach. This helps you share energy management experiences and knowledge with other attendees, bringing the information presented alive to improve retention and support your implementation process when you return to work.

With the full support of a world-class BSI tutor, you'll learn about ISO 50001, common terms and definitions in the standard as well as the key concepts and requirements related to ISO 50001:2018 Energy Management Systems (EnMS).

Learning outcomes

Upon completion of this training, you will be able to explain:

- What is an energy management system
- Why an EnMS is important to an organization and its benefits
- The background of ISO 50001:2018 and its intended outcome
- The terms and definitions used
- The key concepts and structure of ISO 50001:2018
- The main requirements of ISO 50001:2018

Upon successful completion of your course, you'll receive an internationally recognized BSI certificate.
