

FSSC 22000 v5.1 Implementation

Training course

Essential information about the course

FSSC 22000 is the management system standard for food safety (FSMS) that is aligned to internationally recognized best practice, and through ISO 22000:2018 as its basis, makes use of the ISO high level structure. FSSC 22000 helps organizations to provide safe food by proactively improving their FSMS performance.

In this course you will gain the required skills to conduct a base-line review of your organization's current position and implement the key principles of FSSC 22000. Using a step-by-step approach, you'll learn how to develop an implementation plan, create necessary documentation and monitor your FSMS Plan.
