ISO 45001 Occupational Health & Safety

BSI’s Best Practice Migration Journey
ISO 45001 will be the first truly international management system standard for Occupational Health and Safety (OH&S). Through our experience of developing standards and managing thousands of client interactions every year, BSI knows the best practice way of upgrading to a new standard smoothly. Our comprehensive suite of training and support material has been structured to guide you and your organization through the process, every step of the way.

Buy a copy of ISO 45001 and supporting BS 45002 as soon as possible

Understand some of the new requirements in more detail, visit the BSI website for the latest whitepapers

The Importance of Leadership
Understand how leadership is being incorporated in all new ISO Standards and what this means in practical terms

Process versus Procedures

ISO 45001 Best Practice Journey
6 Key Steps for a successful migration

Don’t delay – start to upgrade today

1. Talk to your BSI Client Manager
   - Discuss your challenges and timelines
   - Review the latest videos and whitepapers on the BSI website for background information
   - Buy a copy of ISO 45001 (and supporting BS 45000-2)

2. Attend BSI’s Training programme
   - Delivered by experts, understand the new requirements faster and in greater detail by attending one of our training courses.

3. Communicate with your organization
   - Talk to your leadership team about the new requirements
   - Communicate the revision to your wider organization to gain buy in
   - Send regular updates on progress

4. Set up an Internal Project Team
   - Download BSI’s migration toolkit which will guide you through the migration
   - Create an implementation plan and monitor progress
   - Take a fresh look at your OH&S MS
   - Implement the new requirements on leadership, risk and context of the organization
   - Change your documentation to reflect the new structure

5. Gap Assessment
   - To help you prepare for ISO 45001 we can use our experts to complete a gap analysis to identify your strengths and weaknesses. This will then help you prepare for Step 6

6. Migration Assessment
   - Working with your BSI client manager you can complete your migration to ISO 45001 before the withdrawal of BS OSHAS 18001 in March 2021.
