

Seminar on

Occupational health, workplace wellbeing and ISO 45001

1 April 2020 | 9.00 am - 12.00 noon | BSI training academy, Kuala Lumpur

Workplace wellbeing can extend beyond health, and into happiness as well, and job satisfaction. A healthier and happier workforce is a more productive workforce. Organizations can no longer afford to ignore wellbeing in the workplace.

Physical and mental occupational disease and illness can be prevented. ISO 45001 enables an organization, through its OH&S management system, managing its OH&S risks and improve its OH&S performance; also to integrate other aspects of health and safety, such as worker wellness/wellbeing.

Agenda

- What is wellbeing?
- Wellbeing at work
- Why the emphasis on health in the workplace now?
- Workplace wellbeing programmes
- Occupational health, workplace wellbeing and ISO 45001

Discover why workplace wellbeing is important and how this relates to ISO 45001 in this seminar.

Seminar on

Health & Safety in the food sector and intro to ISO 45001

13 April 2020 | 9.00 am - 12.00 noon | BSI training academy, Kuala Lumpur

There have been fatality accidents reported from food sectors in recent years and there is a need to emphasize safety and health at the workplace to create more awareness among the workers. Learn what the main health and safety challenges are in the food sector and the impact poor health and safety can have on people, revenue, quality and ultimately reputation.

Come find out how ISO 45001 provides a best practice framework for managing occupational health and safety to prevent death, injury and ill-health. Learn about ISO 45001, its aims and key themes and what steps you need to take to implement it within your organization.

- Why ethical trade is important in the food sector
- Health and Safety in the food and beverage industry
- Business impact of health and safety failure
- How ISO 45001 will help your organization
