Preparing for ISO 50001:2018
Five steps for a successful transition

Don't delay – start today

BSI has identified a step-by-step journey to help you understand and realize the benefits of the revised ISO 50001. We have mapped out a framework which guides you through the options and support available from BSI to ensure you have the knowledge and information you require.

1 **Talk to your BSI Client Manager**

- Discuss your challenges and timelines
- Review the latest content on the BSI website for background information

2 **Attend the BSI Training Academy**

- Delivered by experts, understand the new requirements faster and in greater detail by attending one of our training courses

3 **Communicate with your organization**

- Talk to your leadership team about the new requirements
- Communicate the revision to your wider organization to gain buy-in
- Send regular updates on progress

4 **Set up an internal project team**

- Create an implementation plan and monitor progress
- Take a fresh look at your EnMS
- Review your EnPIs and baselines and update as appropriate
- Implement the new requirements on leadership, risk and context of the organization
- Adapt your documentation to reflect the new structure

5 **Gap Assessment**

- To help you prepare for ISO 50001 we can use our experts to complete a gap analysis to identify your strengths and weaknesses

ISO 50001 Transition Timeline

2018 **2019**   **2020**   **2021**

August 2018 – Final standard published
Start of three-year transition period to August 2021
