

About BSI Group

bsi.

Inspiring trust for a more resilient world.

Who is **BSI**?

BSI, by Royal Charter, is the business standards company that helps organizations all over the world make excellence a habit through standards creation, system certification, supplier verification and training activities that help organizations manage risk, reduce costs and ensure sustainability.

As the world's most experienced standards body and founding member of ISO, BSI leads the way in originating many of the world's most recognized standards, including ISO 9001 Quality Management, ISO 14001 Environmental Management, ISO 45001 Health & Safety Management, ISO 22301 Business Continuity Management, ISO 27001 Information Security, ISO 50001 Energy Management, ISO 14046 Water Footprint and ISO 37001 Anti-bribery.

We do business in 193 countries across 6 continents.

- **Experienced:** The world's first national standards body, established in 1901 and founding member of ISO
- **Thought leaders:** Shaped the world's most adopted standards, including ISO 9001, ISO 14001, ISO 45001
- **Trusted:** We're a Royal Charter company and the UK national standards body
- **Leading global standards creation body:** British, European, ISO, public and private standards
- **Specialist focus:** Standards creation, training and certification
- **Global network:** 84,000 clients in 193 countries worldwide

In 1903 the need to demonstrate that products were 'up to standard' sparked the interest of Sir John Wolfe-Barry; the instigator of the first BSI committee and designer of London's Tower Bridge. He combined the letters B, S and V to create a mark to symbolize trust and confidence that could be placed on products to indicate they're verified to a British standard.

Organizational Resilience

Organizational resilience is “the ability of an organization to anticipate, prepare for, respond and adapt to incremental change and sudden disruptions in order to survive and prosper”. Mastering organizational resilience ensures that your organization will continue to be a success.

Organizational resilience addresses three key domains:

1 Operational Resilience

Focuses on identifying operational improvements, including performances and sustainability, across its products, services and processes.

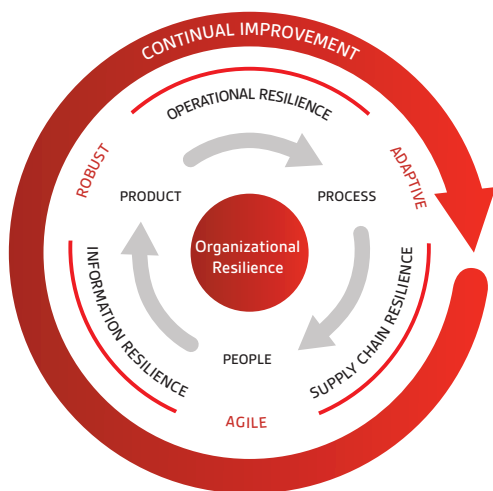

2 Information Resilience

Is the management of an organization's information (including physical, intellectual and digital) from source to destruction allowing stakeholders to store safeguard, access and use information securely and effectively.

3 Supply Chain Resilience

The ability to quantify and mitigate supply chain risk, including procurement, manufacturing, transportation and sales lifecycle, minimizing disruption impact and protecting against financial and reputational exposures.

Speak to us, and we can identify how to make your organization more resilient.

- Maturity analysis - self-discovery
- GAP assessment - reality check
- Implementation plan - prioritization
- Capacity building - execution
- Validate and reporting

Supply Chain Solutions

BSI VerifEye™ Profile

A trusted BSI VerifEye™ profile turns your certifications, site photos, and business credentials into a positive marketing tool, providing trust and confidence.

SCREEN Intelligence

This web-based tool assists companies in identifying and understanding their supply chain security, business continuity and corporate social responsibility needs and threats.

Supplier Compliance Manager

A web-based audit platform which manages supplier profiles, audit schedules, reporting, CAPA process, risk assessments and dashboards for benchmarking and KPI analysis.

BSI Supplier Verification Audits

On-site verifications based on client-specific or BSI-specific standards or checklists.

Business Improvement Solutions

British Standards Online (BSOL)

With BSOL, it's easy to build your own database of relevant standards. You can find what you need fast and stay right up to date – so you can avoid costly errors and work with confidence.

Enterprise Training Solutions

Delivering high-quality, organization-wide training solutions, globally.

Entropy Connect

Entropy Connect allows anyone in your organization to quickly and simply record incidents, near misses, risks or non-conformities. Information flows back to the Entropy platform in real-time where it can be analysed and evaluated, providing insight that can drive decision making.

Product Certification

BSI Kitemark™ - Product and Service Certification

The BSI Kitemark™ is a registered certification mark owned and operated by BSI. It is one of the most recognized symbols of quality and safety and offers true value to consumers, businesses and procurement practices.

CE Marking - Product Certification

BSI can help you gain easier access into the European market by ensuring your product meets all the CE mark requirements.

Benchmark Product Certification

The Benchmark is a registered certification mark owned and operated by BSI. It's highly recognized and respected as a symbol of quality and safety. A product bearing this mark indicates that BSI has conducted a rigorous audit of its manufacture and production, and symbolizes that the product complies with the appropriate international standard.

UKCA

The UKCA (UK Conformity Assessment) mark is the new UK product marking that will be required for certain products being placed on the market in Great Britain (England, Wales and Scotland). It covers most products that previously required the CE mark.

BSI Connect Portal

Enhancing your assessment experience

BSI Connect Portal is a convenient way for you to interact with us as your certification body. It'll help your organization embed excellence by providing a web-based, intuitive way to interact with your BSI assessment data and assessors. The entire process is seamless, easy and created with excellence in mind.

Watch the short demo [here](#).

Key benefits:

Convenience:	24/7, self-serve access to your BSI certification information
Efficiency:	Manage BSI NCRs / CAPs through a centralized system
Visibility:	See the status of all your BSI NCRs/CAPs as they progress as well as associated tasks you set
Confidence:	View progress of new and updated BSI certificates
Measure:	Profile your performance against industry benchmarks to drive your business forward
Analytics:	Obtain quick-view information on BSI findings, i.e. number by type, by location and/or standard

BSI Training Academy

BSI is an industry thought leader in training to international compliance standards. We're one of the world's leading providers of business improvement trainings, offering a range of solutions to keep your staff qualified and updated.

We aim to be first to market and provide you with the opportunity to enjoy the first mover advantage by adopting new standards. From understanding how a standard can help your business, to implementing, monitoring and auditing your compliance to that standard, we can support you all the way.

How we deliver your training is your choice

Public course: You can opt for courses at one of our many venues, along with delegates from other businesses.

In-house course: If you'd like to train several people on a specific topic in a single location, we can run the same high-quality course at your premises

Connected learning live course: Or if you'd like training without the need to travel, you can opt to learn in a virtual classroom.
