Types of Training

Online training

With BSI's 'live' online training, you can take the same high-quality classroom course with the same expert tutor, simply delivered in a virtual environment, regardless of where you're located.

You can even book a course that's dedicated to your organization, so a group of you can all train at the same time – from anywhere.

In-house training

An in-house training course is one held at your premises and is open only to your employees. Training in-house eliminates travel expenses and additional time away from the office. It also keeps your content and discussions confidential.

We also offer training via distance learning and e-learning, to suit your individual needs:

Distance learning

Allows you to study at your own pace and whenever is convenient to you.

It's cost effective and puts you in control of your learning.

Classroom training

Our public training courses take place in our office.

Attendees are away from office distractions and benefit from interacting and networking with people from other organizations.

E-learning

If you're looking to increase your knowledge through computer-based learning, you'll soon be able to access our e-learning training portfolio.
