1 Introduction

This recognition booklet is designed to assist your organization on the requirements for certification to GLOBALG.A.P Integrated Farm Assurance (IFA) Crops Base scope standards throughout the BSI Group.

2 Accreditation Status

Certification to this standard is accredited.

BSI holds accreditation for this standard with ANSI (American National Standards Institute).

This scheme follows the requirements of ISO17065:2012

3 The Recognition Process

The following section outlines the steps that apply during the BSI recognition process for GLOBALG.A.P.

BSI reserves the right to provide its clients and those that request quotations with marketing and technical information relating to standards, training and compliance services.

3.1 Initial Inquiry

BSI will respond to either verbal or written expressions of interest from organizations interested in one or more of our programs. If your organization is located near one of BSI's offices, an advisory visit may be arranged to discuss your recognition requirements and how BSI can help your organization achieve them.

BSI will also, on request and receipt of a Request for Quotation, prepare a proposal tailoring our services to your organization's needs.

3.2 Application for Certification and Assessment

Receipt of your organization's Application form (or authorized acceptance of a valid BSI proposal), along with the accompanying payment of the non-refundable application fee (or invoicing instructions) together with this document forms the contract between your organization and BSI.

Your requirements will be entered into our database and a Client Manager will be appointed to look after your certification or assessment requirements. The Client Manager will be your primary point of contact with BSI and is responsible for ensuring that our certification/assessment services are delivered to your organization in the most effective manner possible.

BSI will also register your organization in the GLOBALG.A.P Database and shall inform you about and explain the GLOBALG.A.P General Regulations - Data Access Rules document. Data access rights shall be defined and signed by you during registration.

3.3 Client Contact

As soon as practicable after receipt of your signed application/proposal, a BSI Client Manager (or nominated representative) will contact your organization. The Client Manager will seek to establish a working relationship between your organization and BSI, and to confirm your recognition requirements in terms of the certification or assessment services, standards or codes of practice, locations, and activities and/or products to be included in the scope of certification.

The Client Manager (or nominated representative) will seek to gain an appreciation of the structure of your organization and the activities being conducted. In particular the Client Manager will:

- Seek an appreciation of the nature and scope of the organization's activities, structure and location(s), including any activities for which confirmation is being excluded; and
- Determine the status of system documentation and implementation including organizational policies, objectives and targets.

If you are working with a consultant it is often useful for that person to be party to the communication process.

3.4 Gap Analysis (optional)

A Gap Analysis approach often proves an invaluable tool in determining system implementation, particularly for new systems that are still in the early stages of development. This one-off assessment includes the identification of gaps against the requirement of the nominated Standard or Code of Practice. At the conclusion of the Gap Analysis you will receive a report which highlights any gaps as well as options for next steps on your path to certification. The results of a Gap Analysis are not directly linked to any subsequent Certification Audits.

3.5 Certification Inspection/Audit

The purpose of the Certification Audit is to establish whether your organization has implemented and complies with the relevant standard by examining actual practices, documentation and records and comparing them against the organization's policies and procedures. The inspection/audit process is, effectively, an undertaking to establish that your documented policies and practices are understood by your personnel and have been effectively implemented.

The Inspection/Audit will be led by appropriately qualified and experienced auditors and, where required, witness auditors, observers and/or technical specialists acting as advisers to the audit team may also be present. These specialists bring current specialized knowledge of the activities being audited to the audit team and ensure that the audit provides a relevant and practical review of aspects critical to the business.

BSI assessors use GLOBALG.A.P issued checklists to complete your assessment. These checklists form the basis of the report.

3.6 Certification Inspection/Audit Report

At the conclusion of the inspection/audit, the audit team will prepare a written report on the inspection/audit findings and the audit team leader will present these findings to your organization's senior management at the exit meeting.

The inspection/audit findings include a summary of the overall compliance of your system with the requirements of the relevant standard(s) or codes of practice. The final report will be subsequently provided after completion of the Inspection/Audit.

The inspection/audit report will include the following information;

- Summary of the evaluation activity undertaken
- Objective evidence and information of your organizations compliance to the GLOBALG.A.P standard
- Lists any non-compliances and/or non-conformances identified

Non-compliances and/or Non-conformities will be discussed with your team during the inspector's/auditor's visit and outlined at the exit meeting. These are categorized as Major Musts, Minor Musts and Recommendations. Observations are not raised at GLOBALG.A.P assessments.

If you are unclear regarding the meaning of anything in your report, please contact your BSI Client Manager.

If non-compliances and/or non-conformances have been raised during your organisations' assessment BSI will provide guidance on the steps that are needed to take place to continue to certification. Such guidance may include timeframes for close out or requirement for re-assessment. BSI cannot provide guidance on how to close out non-compliances and/or non-conformances.

It is your organization's responsibility to respond to the non-compliances and/or non-conformities detailed in your inspection/audit report by the designated time frame. Failure to do so may result in suspension or cancellation of your certification.

Definitions and close-out requirements for non-compliances and/or non-conformities are defined in the GLOBALG.A.P General Regulations – Part I General Requirements section 6.

3.7 Inspection/Audit Cycle and Certification

Inspections/Audits are conducted in accordance with the requirements of the Standard; please refer to GLOBALG.A.P General Regulations - Part I General Requirements section 5.

BSI Certification Guidebook Addendum (GLOBALG.A.P) Revision 2 (September/2015)

Follow-up inspections/audits may be required to be conducted whenever a sanction has been raised which requires a follow-up inspection/audit to close-out any non-compliance/non-conformity.

Production and/or activities relevant to the scope of certification must be occurring at the time of the inspection/audit, in order for the control point criteria to be verified within your business.

3.8 Certification Decision

After confirmation that any necessary corrective actions have been taken, which may involve a follow up visit by the BSI Assessor, the findings and recommendations made in the inspection/audit report are subject to an internal review process prior to certification being granted.

BSI inspectors/auditors undertake an extensive review process of audit reports and there may be occasions when audit report gradings are revised based upon discussions with the Compliance and Risk Food team.

3.9 Certificates

When your organization has achieved certification, BSI will provide you with a Certificate as a statement that your organization has achieved certification to the relevant standard(s). The certificate will include important data such as your organization's certification number, the standard for which certification has been granted, and the date of certification. The certificate should be displayed where it will be seen by customers and potential customers.

When copies or elements of the certificate are used in tenders or offered to potential or existing customers, the certificate should be accompanied by the scope of certification document (if issued separately) as it is important for them to understand the scope of activities for which certification has been granted (see 'Scope of Certification' below).

Incorrect use of the certificate can result in a customer being misled as to the extent of your organization's certification. Clients are obliged to ensure that BSI has been formally notified of the changes of address, ownership, changes to key management responsibilities, major management system changes and capability information so that the certificate maintains its currency. Failure to do so may compromise your organization's certification status.

All original certificates remain the property of BSI Group ANZ Pty Limited and must be returned on request.

3.10 Scope of Certification

The scope of certification fully details the scope of your organization's certification in terms of:

- Names and addresses of all locations covered by the certification;

...making excellence a habit.™

BSI Certification Guidebook Addendum (GLOBALG.A.P) Revision 2 (September/2015)

- Achievement of certification to the relevant standard(s) or code(s) of practice
- The capability statement (range of products, services, and activities) for each location covered by the certification and
- Any specific exclusions from the scope of certification

Clients are obliged to ensure that BSI has been formally briefed in a timely manner when any variations occur. Clients should not wait until the next scheduled assessment to notify BSI. Failure to do so may compromise the organization's certification status.

3.11 Suspension or Refusal of Certification

In the event that your organization is unable to comply with the requirements of the relevant standard, BSI may refuse to grant certification or suspend your current certificate.

The decision to refuse certification, and the grounds for that decision, will be communicated to your organization in writing.

When an organization's certification is suspended the organization shall, for the period of suspension or refusal:

- Withdraw and cease to use any advertising or promotional material that promotes or advertises the fact that the organization is certified
- Ensure that all copies of certificates and scopes of certification are removed from areas of public display and
- Cease to use the certification mark on stationery and other documents including media and packaging that are circulated to existing and potential clients, or in the public domain

The organization shall advise BSI in writing of action taken with respect to the requirements listed above;

- BSI shall advise the organization in writing of the certification processes that will need to be completed to restore certification; and
- During the period of suspension the organization shall continue to pay all fees levied by BSI

3.12 Cancellation of Certificate

When an organization's certification is cancelled, the organization shall immediately:

- Cease any advertising and promotional activities that promote the fact that the organization holds certification
- Withdraw and cease to use any advertising and promotional material that promotes the fact that the organization holds certification

- Cease to use relevant certification marks in any way to promote the fact that the organization holds certification and
- Return all certificates and pay outstanding fees

3.13 Variations to Certification

Your organization is required to advise BSI if there are any significant changes to your organization or the product.

Variations to certification may originate from:

- Variations to the scope of certified product
- Major nonconformities
- Voluntary withdrawals
- Withdrawal of certification by BSI Group
- Change of certification scope
- Change of ownership
- Change of management
- Change of company name
- Change of ABN etc.

BSI will determine if the degree of change is significant to require an additional assessment or if the changes can be assessed at the next schedule audit or if the product requires re-assessment.

3.14 Reduction in Scope of Certification

When an organization's scope of certification is reduced, BSI shall issue revised certificates and scopes of certification as appropriate and the certified organization shall:

- Return all superseded certificates
- Ensure that use of the certification mark is adjusted to reflect the reduced scope of certification
- Ensure that all advertising and promotional activities and materials are adjusted to reflect the reduced scope of certification and
- Pay any fees that are applicable for the facilitation of this activity

4 Use of the BSI Certification Mark

You are entitled to use the appropriate BSI 'kitemark' whilst you maintain certification to this program with BSI. For a copy, visit our website at www.bsigroup.com

Use of the logo is subject to Condition and rules of its application.

5 Use of the GLOBALG.A.P Logo

The GLOBALG.A.P logo and QR Code logo is proprietary and use of the logos is subject to GLOBALG.A.P terms and conditions (refer GLOBALG.A.P General Regulations – Part I General Requirements Annex I.1 Rules for the use of GLOBALG.A.P Trademark and Logo).

6 Standard Owner Information

GLOBALG.A.P is the owner of these standards.

Additional information, including copies of the Standards may be obtained through their website at www.globalgap.org/uk_en/

It should be noted that GLOBALG.A.P may elect to contact client directly for feedback or discussion of inspection/audit information.

7 Confidentiality

BSI will treat all information in accordance with the Privacy Amendment (Enhancing Privacy Protection) Act 2012

8 Additional Obligations

Following certification, there are a number of managerial responsibilities which your organization will need to observe to maintain BSI's certification. These include:

- Continued compliance with the relevant systems standard(s) or code(s) of practice;
- Compliance with the BSI Standard Commercial Terms and Conditions and obligations as specified in this document as well as other guidance documentation that may be specifically provided from time-to-time;
- Conduct of regular internal reviews of your system, with appropriate documentation of such reviews and of any subsequent corrective actions;
- Notification to BSI of any significant changes in the structure (key responsibilities and management system), ownership and operations of your organization to enable the impact of such changes on the certified ownership system to be evaluated; and
- Notification to BSI of any litigation or serious events or matters that relate to the scope of your certification.

8.1 Complaints

Your organization is required to keep a record of all known complaints. These records must be made available to the audit team and BSI when requested.

Your organization is required to demonstrate that you have taken appropriate action to address these complaints through investigation and correct any deficiencies found. These actions must be documented.

8.2 Certification Agreement

Your Organization is required to meet the requirements of the Certification Agreement. This requires that your organization and products remain compliant with the scheme requirements at and the conditions of certification at all times.

Your organization is required to implement appropriate changes as communicated by BSI in a time appropriate manner.

8.3 Assessment Scheduling

Your organization is required to make all necessary arrangements to allow the evaluation and surveillance activities to take place. This includes but is not limited to; Equipment, Product, Locations, Personnel and Sub-contractors.

8.4 Misleading Statements

Your organization is not permitted to use its product certification in a manner that could bring the BSI into disrepute. This includes making misleading or unauthorized statements. If you are unsure if a statement could be misleading you are advised to contact BSI prior to making the statement. Statements include but are not limited to the use of the logo on non-certified product, advertising (including your website) and internal communication.

If your organization is required to provide copies of their certification documents these must be reproduced in its entirety. Failure to do so may be misleading to the recipient as to the scope of certification.

8.5 Changes to Circumstances

Your organization is required to advise BSI of any changes without delay to circumstances that may affect certification. Examples of such changes include but are not limited to;

- Authorized Representative
- Business name (Legal entity) and Trading Name (where applicable), ABN
- Ownership

- Contact details
- Location, site addresses
- Business activity/ies, scope of certification (Products and Processes)
- System Management Number of employees, covering all shifts and sites
- Billing Details

8.6 Observers

From time to time BSI requires an Observer to be in attendance at an inspection/audit. This may be related to training of new staff and witness assessment of existing staff. It is a requirement of certification that your organization allows these activities to occur.

Failure to allow this activity to occur may result in cancellation of your certification.

BSI will, at all times, ensure that the use of observers is kept to a minimum and your organization will be advised prior to the assessment activity.

The Observer does not take an active part in an assessment.

9 Complaints and Appeals

Appeals against certification decisions and / or complaints against service delivery levels may be raised with your Client Manager. If you remain dissatisfied, contact the BSI General Manager Compliance and Risk in writing.

All complaints will be investigated and the originator of a complaint will be advised of the outcomes, as appropriate.

BSI will also investigate legitimate documented complaints, relevant to operation of the system, from customers of certified organizations and the accreditation body. Certified organizations shall, at all reasonable times, provide representatives of BSI with access to its premises and records for the purposes of investigating such complaints.

If your organization's application for certification has been refused; or your certified organization's certification has been suspended, withdrawn, or reduced in scope, you may appeal against the decision to a Review Committee constituted and operated as set out below:

- The appellant shall, within 28 days of the disputed advice from BSI, lodge a notice of appeal with an affidavit as to the grounds of appeal with the BSI Group ANZ Pty Ltd.'s Managing Director in writing;

BSI Certification Guidebook Addendum (GLOBALG.A.P) Revision 2 (September/2015)

- The CEO or equivalent shall advise the BSI Group Regional APAC Executive within 14 days of receiving the appellant's notice
- The Executive shall then establish a Review Committee upon payment of the fees set by the Executive for consideration of the appeal
- The Review Committee shall consist of three persons considered as experts in the area of technology or business relevant to the appeal. The Review Committee shall be constituted as follows:
 - One person expert in the relevant area of technology or business appointed by the Board; and
 - Two persons selected by the appellant from a list of four persons nominated as eligible by the Board

The appellant shall represent himself and no legal representation will be allowed unless approved by the Review Committee; and

The Review Committee will carry out investigations as are required, including assessment of information supplied by the appellant and, within a reasonable time, decide by majority vote whether or not to reverse the original decision. The Managing Director or equivalent shall give notification of the decision to the appellant within 14 days of the Review Committee decision

To raise a complaint or appeal against the service delivery by BSI or audit outcome please notify;

10 Specific Program FAQ's:

What is the duration of a GLOBALG.A.P inspection/audit?

The duration of a GLOBALG.A.P inspection/audit depends on your specific processes and products. It will vary with organisation size and complexity.

Please contact BSI if you require guidance.

How do I close out my CAR's?

Corrective Action Information, including evidence, should be sent to one of the following:

...making excellence a habit.™

**BSI Certification Guidebook Addendum (GLOBALG.A.P)
Revision 2 (September/2015)**

Email to: Fooddivision.au@bsigroup.com with your company name and BSI Auditor's name; or

Post to: Food Division
BSI Group ANZ Pty Ltd
Level 7, 15 Talavera Road
Macquarie Park
NSW 2113

Please do not send responses to an Inspector's/Auditor's personal email address or any other state office other than Sydney.

Do auditors need to be rotated for GLOBALG.A.P audits?

No. This may apply for other standards however, and where we audit several standards together for your organisation, we may also apply the principle to the GLOBALG.A.P. Standard in order to minimise certification costs.
