

Auditor qualifications for Internal auditor / lead implementers

Lead Auditor Course

You'll gain the knowledge and skills required to undertake and lead a successful audit. Using a step-by-step approach, you'll be guided through the entire audit process from initiation to follow-up.

Anyone with the need to audit a management system or who leads a team of auditors

Duration: Five days

Assessment: 2 1/2 hour exam during the final day of the course

Standard-specific courses :
ISO 9001, ISO/IEC27001, ISO 13485, ISO 14001, ISO 45001.

You'll gain an IRCA & CQI qualification for completing this course and its pre-requisites

Process Improvement Practitioner

This interactive and practical three-day course will provide first-hand experience of using a range of approaches and tools for effective process improvement. This will enable you to employ a process improvement framework that works effectively for your organization.

Anyone who wants to apply an effective and structured process improvement framework and those looking for practical, hands-on skills that can be applied in workplace.

Duration: Three days

Assessment: Online exam

You'll earn a BSI badge **Certified Process Improvement Practitioner** for completing this course and its pre-requisites

Process Improvement Auditor

The course is built around a comprehensive case study which you will audit. This will enable you to apply process improvement auditing to an organization, covering reactive, incremental and stepped change improvements.

Qualified lead auditors with experience of any management system discipline, especially those who'd specifically like to develop their process improvement auditing knowledge and skills.

Duration: Two days

Assessment: Online exam

You'll earn a BSI badge **Certified Process Improvement Auditor** for completing this course and its pre-requisites

Process Improvement Professional

This course is designed to provide you with knowledge and help develop your skills to manage the 'leadership' of a process improvement activity. The tools and techniques covered during the course are applicable to any process (or any management system process).

Qualified lead auditors with experience of any management system discipline, especially those who'd specifically like to apply advanced, and structured process improvement methodologies

Duration: Two days

Assessment: Online exam

+ Submitting a post-course assessment pack

You'll earn a BSI badge **Certified Auditor Professional** for completing this course and its pre-requisites
