

ISO 22301:2019 Lead Auditor

Training course

Essential information about the course

Our Business Continuity Management Systems Lead Auditor Training Course teaches the fundamental auditing principles and practices, in conformance with national and international accepted norms and regulations relating to business continuity (BC) requirements.

By attending this course, delegates will also gain the necessary auditing skills through activity-based learning, and practical auditing experience with coaching, group activities and open forum discussions. Experienced BSI tutors will guide delegates through the entire audit process; from initiation to conducting audit follow-up.

Successful completion of this BSI certified training course, by passing the relevant examination and skills assessment, will demonstrate knowledge and basic skills to undertake and lead a management systems audit.
