### Course Descriptive

The adoption of an OH&S MS is intended to help an organization to continually improve its OH&S performance, fulfill legal and other requirements, and achieve its OH&S objectives. An internal audit is an essential element to an effective OH&S MS, and by attending this course you will benefit by learning and developing the skills necessary to assess an organization's ability to achieve these intended outcomes.

This course develops the necessary skills to assess and report on the implementation and effectiveness of processes based on ISO 45001. You'll learn how to initiate an audit, prepare and conduct audit activities, compile and distribute audit reports, and complete follow-up activities.
