

Major revisions timeline – October 2019

○ Committee Draft (CD): Published Draft International

● Draft International Standard (DIS): Published/Expected to be published

○ Final Draft International Standard (FDIS): Published/Expected to be published

● International Standard published: Expected to be published

*ISO/IEC 27701 was originally named ISO/IEC 27552 during the international standards development. It has been agreed for all management system standards to have a consistent approach and therefore ISO/IEC 27552 name was changed to ISO/IEC 27701. This does not affect the content of the standard, its aim and application.
