

## ISO/IEC 27701:2019 Implementation

### Training course

#### Essential information about the course

ISO/IEC 27701:2019 specifies the requirements and provides guidance for implementing a privacy information management system (PIMS) in the form of an extension to ISO/IEC 27001:2013 and ISO/IEC 27002:2013 for privacy management, within the context of your organization.

By attending our two-day course, you will understand how to implement the principles of ISO/IEC 27701:2019 and the required changes to extend your ISMS. It will help you understand how the requirements of ISO/IEC 27701 provide the basis of an effective PIMS and provides guidance for personally identifiable information (PII) controllers and/or processors, processing PII.

With the full support of a world-class BSI tutor, you'll learn about ISO/IEC 27701:2019 common terms and definitions, as well as the how to implement the key concepts and requirements.

#### Our course agenda

Day 1	Day 2
<ul style="list-style-type: none"> <li>• Benefits to you, welcome and introductions</li> <li>• Course aim, objectives and structure</li> <li>• Background to ISO/IEC 27701</li> <li>• Benefits of implementing ISO/IEC 27701</li> <li>• Key terms and alternative terms</li> <li>• What is a PIMS?</li> <li>• PIMS Plan, Do, Check Act (PDCA) Cycle</li> <li>• Implementing a PIMS</li> <li>• Overall project management process and link to PDCA</li> <li>• Integration – High level structure</li> <li>• Project plan</li> <li>• Documentation</li> <li>• Clause 5 PIMS-specific implementation requirements relating to ISO/IEC 27001</li> <li>• Clause 6 PIMS-specific implementation requirements related to ISO/IEC 27002</li> <li>• End of day 1</li> </ul>	<ul style="list-style-type: none"> <li>• Review of day 1 quiz</li> <li>• Clause 7 additional implementation requirements and ISO/IEC 27002 guidance for PII controllers</li> <li>• Clause 8 additional ISO/IEC 27002 implementation guidance for PII processors</li> <li>• Annexes</li> <li>• Continual improvement</li> <li>• Course review and final questions</li> <li>• End of course</li> </ul> <p>Book today at  <a href="https://bsigroup.com/training">bsigroup.com/training</a></p>

Upon successful completion of your course, you'll receive an internationally recognized BSI certificate.

## Make sure the course is right for you

### Who is this course for?

Anyone involved in planning, implementing, maintaining or supervising an ISO/IEC 27701 PIMS. The course is equally relevant to PII controllers and PII processors.

What will I learn?	What are the benefits?
<p>The course covers the following specific learning objectives:</p> <p>Knowledge:</p> <ul style="list-style-type: none"><li>• Recognize a typical framework for extending your ISO/IEC 27001 ISMS to include specific requirements and guidance for protecting personally identifiable information (PII) and implementing a PIMS</li><li>• Interpret key requirements and guidance of ISO/IEC 27701 from both a PII controller and processor implementation perspective</li><li>• Identify the benefits to your organization of implementing an ISO/IEC 27701 PIMS</li></ul> <p>Skills:</p> <ul style="list-style-type: none"><li>• Conduct a gap analysis of your organization's current compliance with the requirements of ISO/IEC 27701</li><li>• Implement the key requirements and guidance of ISO/IEC 27701</li></ul>	<p>This course will help you to:</p> <ul style="list-style-type: none"><li>• Recognize how to extend an ISO/IEC 27001 ISMS to include specific requirements for protecting your PII and implementing a PIMS (addressing both information security and privacy protection)</li><li>• Identify where adjustments might need to be made to your ISMS to accommodate your situation and progress made to date, in respect of protecting privacy</li><li>• Increase your knowledge of the requirements and guidance contained within ISO 27701, from an implementation perspective</li></ul> <p>Your learning will be through an activity-based, delegate-centred approach. This will help you share experiences and knowledge with other attendees; bringing alive the information presented and resulting in enhanced retention and application to your own workplace.</p>

**Prerequisites** - you are expected to have the following prior knowledge:

You should already have a good knowledge of implementing an ISMS based on ISO/IEC 27001 and ISO/IEC 27002 and be looking to extend your ISMS to include privacy information management. A good knowledge of PIMS requirements and terminology is recommended. You should have previously attended an ISO/IEC 27701 requirements course and we also recommend delegates understand whether a PIMS is currently employed in their organizations.

### Why invest in training from BSI?

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses from beginner to expert. We create a positive learning environment so you retain the knowledge and acquire the skills that will continue to be of use beyond the course.

When you attend a BSI training course, our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn. Trusted experts with years of hands-on and business experience, they bring the subject matter to life with relevant and contemporary examples to enhance your learning.

Training delivered at your site could be a convenient and cost effective option, especially if you have multiple delegates. Talk to one of our experts to find out more.
