ISO 20916 IVD - Clinical performance studies

Dr Marco Rost - Training Lead Regulatory Service (IVD)

2

Disclaimer

- Information presented within this webinar is based on our current understanding of the IVDR and the standards
- Subject to change

Why a webinar on a standard., ... in a series on IVDR?

BSI Standards Publication

In vitro diagnostic medical devices — Clinical performance studies using specimens from human subjects — Good study practice

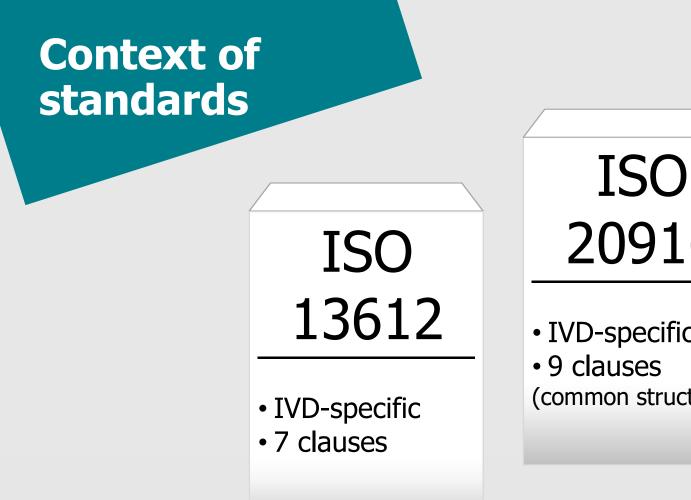

- IVDR has expanded stipulations for clinical performance studies
- e.g. in Article 57 to 77 and in Annex XIII, section 2
- BS ISO 20916:2019 can assist in meeting those by Good Study Practice

Which of the following standards do you already know?

- a) ISO 13612
- b) ISO 14155
- c) ISO 20916
- d) All of the above
- e) None of the above

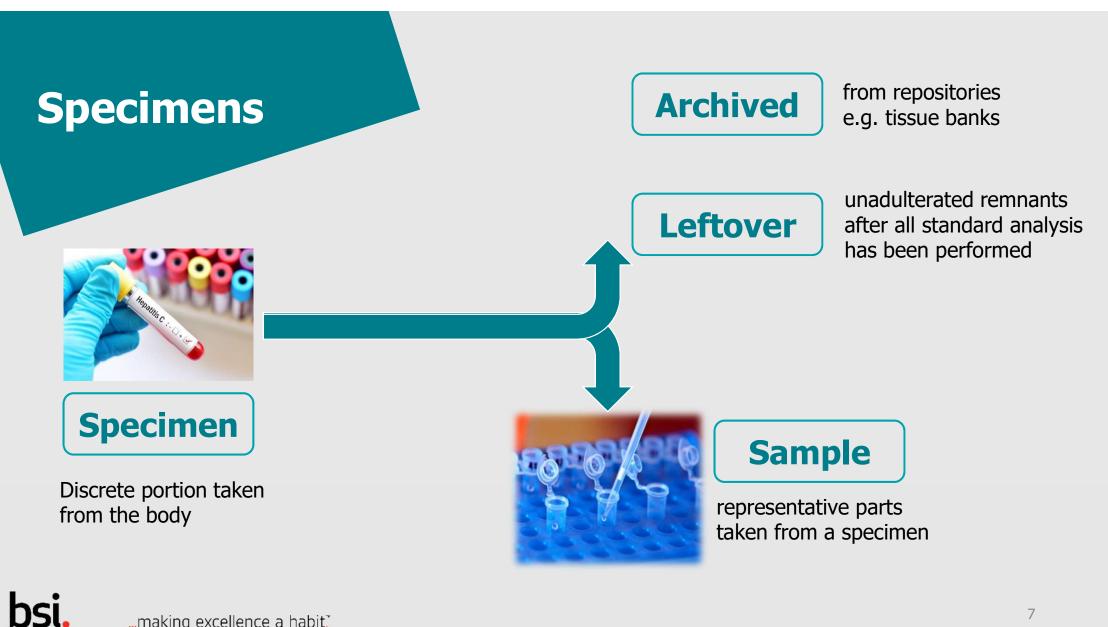

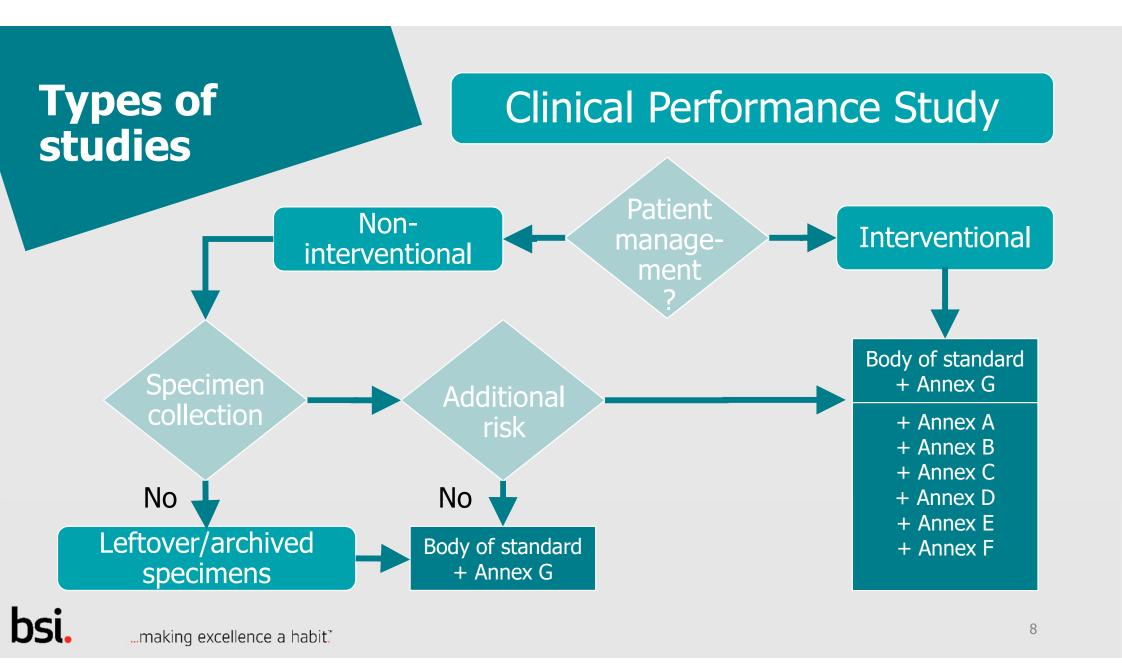

20916

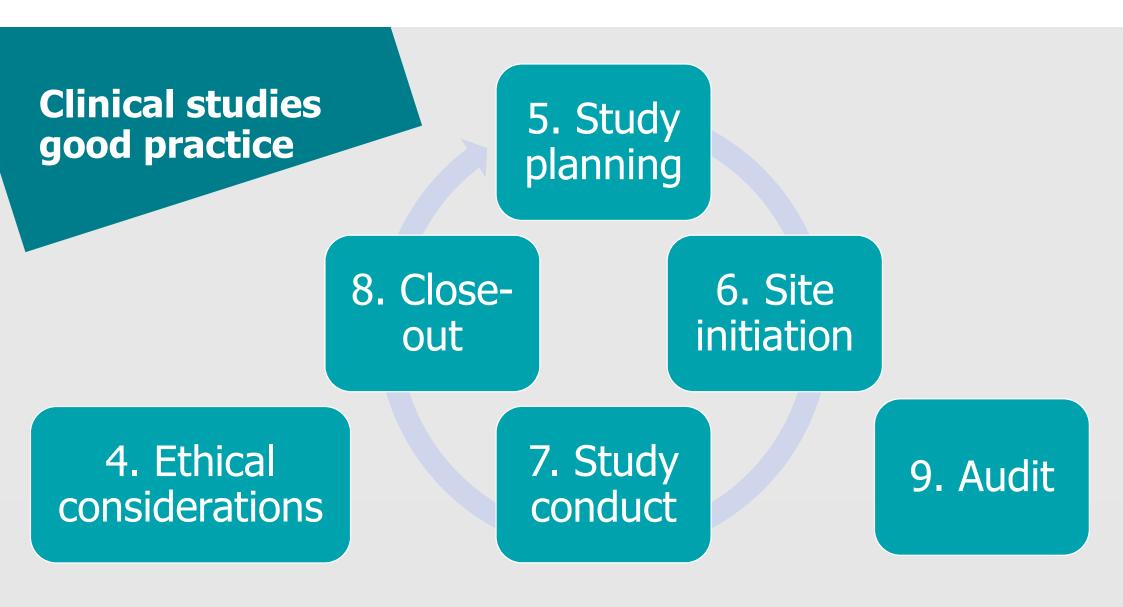

• IVD-specific • 9 clauses (common structure)

ISO 14155

- Medical Devices (excludes IVD)
- 9 clauses (common structure)

Ethical Consideration

4.1 General	 Protect rights, safety, dignity and well-being of the subjects 	
4.2 Improper influence or inducement		
4.3 Responsibilities	 all parties involved 	
4.4 Ethics committee involvement	 Caveat: Local law, e.g. for medical practititioner 	
4.5 Informed consent	• For leftover/archived specimens consent might be in general form	

Are you planning to conduct a Clinical Performance Study under the IVDR this year or next year?

a) Yes

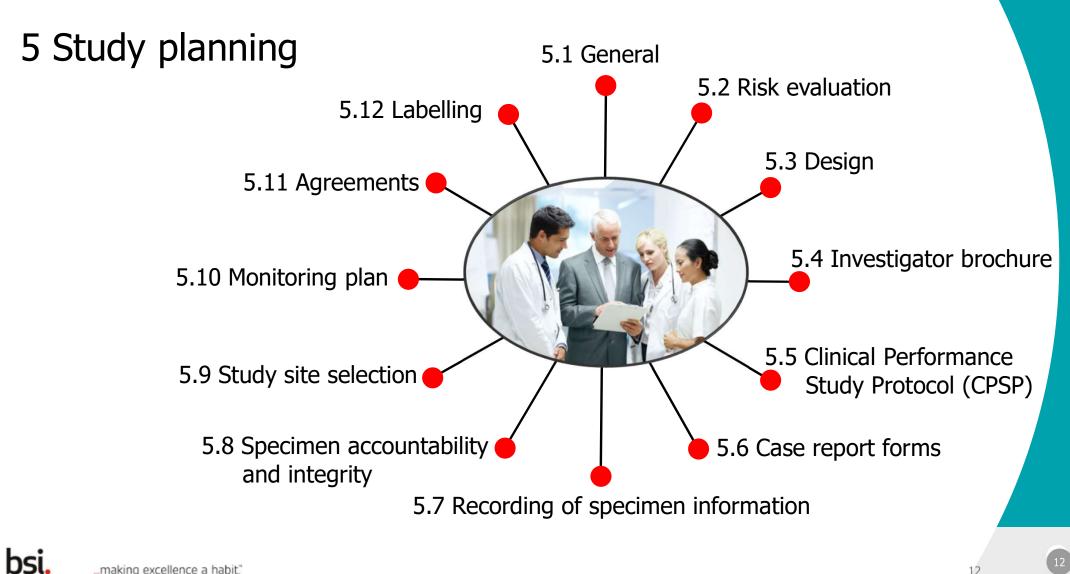

b) No

c) Evaluating at the moment

d) Not sure

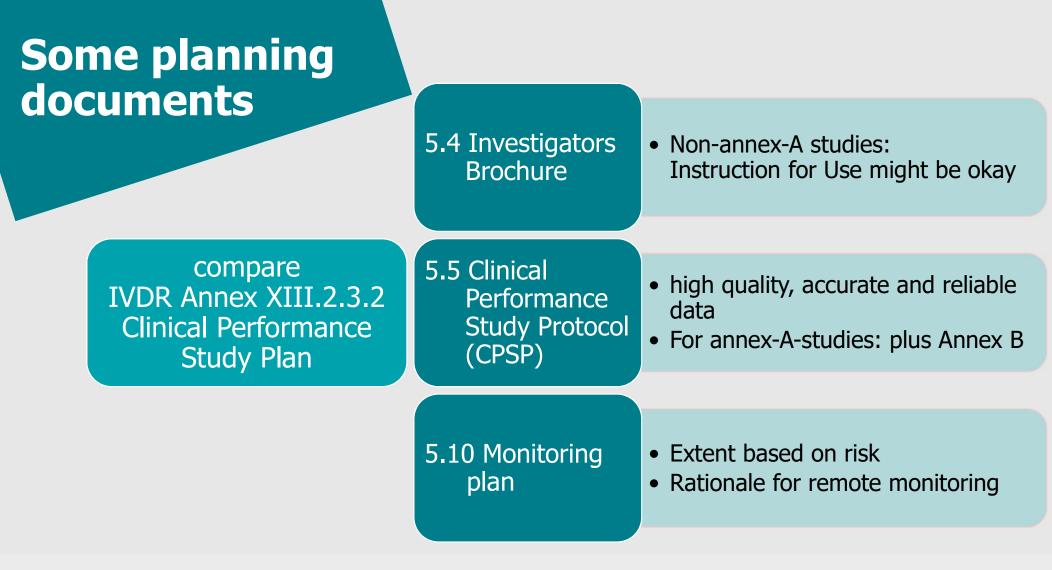

Need for QMS

Clinical Performance Studies shall						
5.1 Be undertaken under an effective quality management system	5.3 Use product representative of the final IVD	5.1 Have agreements with externals - written and assumed				
e.g. ≻ ISO 13485	e.g. ≻ Process control	5.11 e.g. ≻ Investigators ≻ CRO, labs				

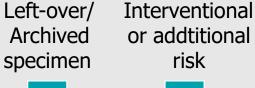

Good clinical performance study documentation

- Informative
- Sets of documentation

	No.	Documentation	Purpose or comment	Relevant clause (set A)	Reference clause (set B)
Γ	H.1	Ethics committee notification, correspondence and opinion/approval	Gives evidence that a qualified, independent ethics committee has reviewed the clinical performance	<u>4.4</u>	<u>4.4</u>
			study and is maintaining oversight	<u>4.5</u> <u>5.5.3.18</u> b)	<u>4.5</u> <u>5.5.3.18</u> b)

Accountability

Of IVD devices

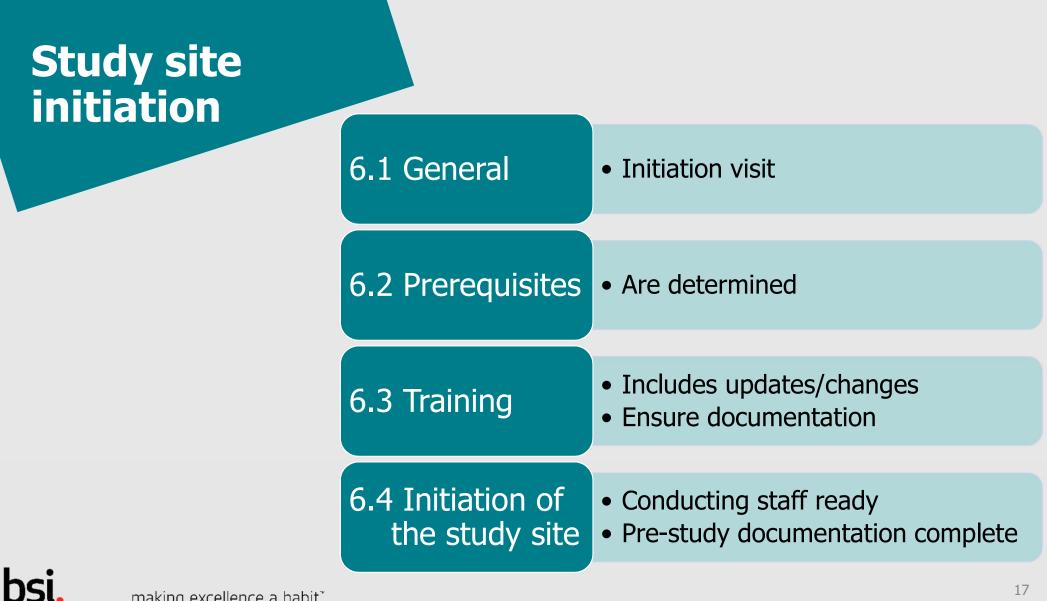

5.5.3.16

 Records about physical location of all IVD

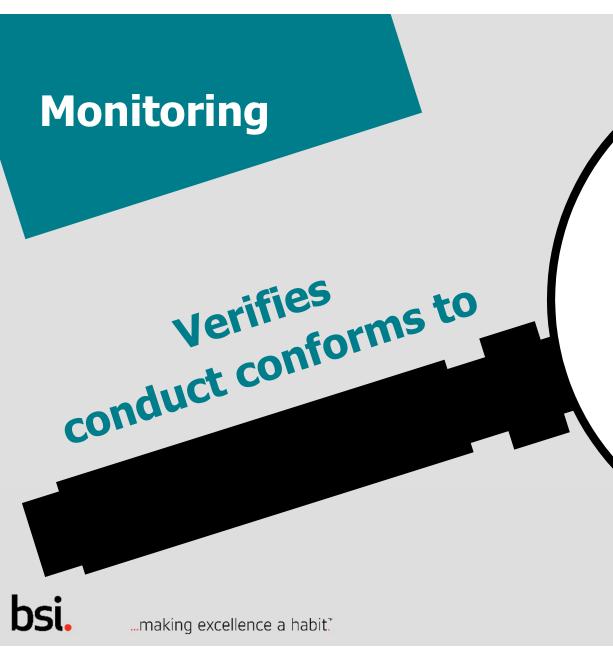

Of specimens

5.7 & 5.8

- e.g. study sample log
- Ensure access to data
- E.g. for monitoring, audits, inspections

- CPSP
- ISO 20916
- Ethical &
- Regulatory requirements

19

Auditing – annex I

- Separate from monitoring
- If deficiencies, re-audit

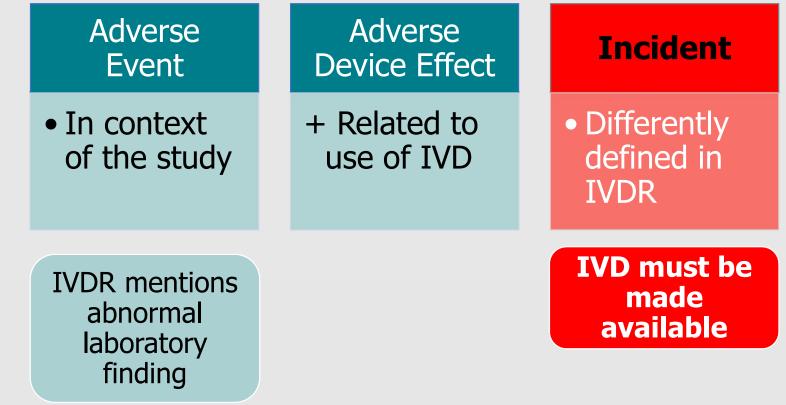

- Qualified
- No direct responsibility for site or study

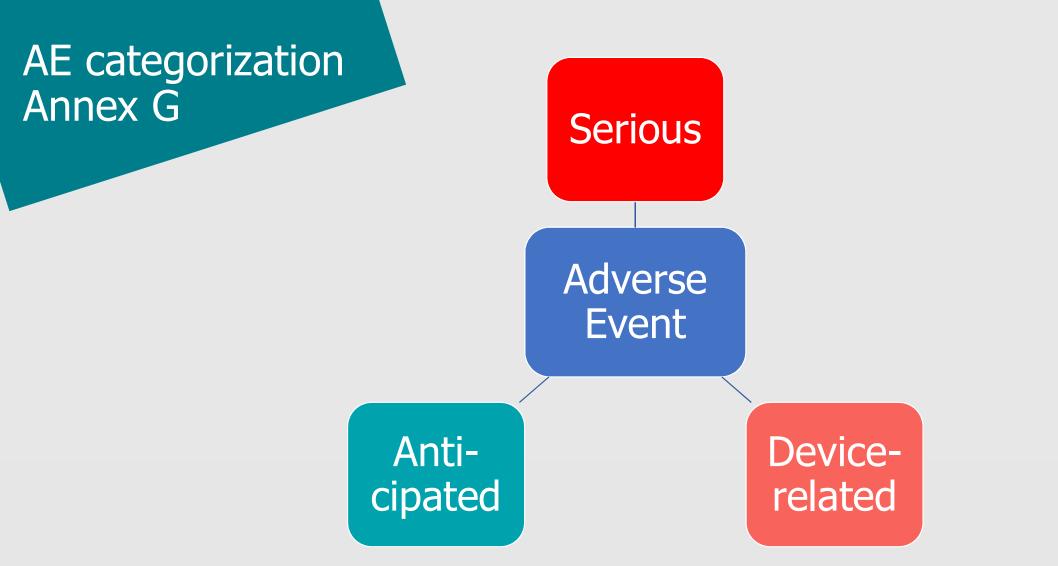

Audit
Written procedures
Specific plans

Adverse Event or device effect

How ready are you for the In Vitro Diagnostic Regulation?

The In-Vitro Diagnostic (IVD) industry is undergoing significant change. The IVD Regulation (2017/746), which replaces the IVD Directive (98/79/EC), entered into force on 25 May 2017. This started the transition period of five years for manufacturers selling IVD devices into Europe.

Manufacturers have the duration of the transition period to update their technical documentation and processes to meet the new requirements. BSI is
