Concerned about the new Medical Device Regulations?

New BSI white paper: Planning for implementation of the European Union Medical Devices Regulations - Are you prepared?

Planning for implementation of the European Union Medical Devices Regulations - Are you prepared?
BSI Group, the British Standards Institution, is a not-for-profit organization.

bsi. ...making excellence a habit.

This new white paper examines the practical aspects of implementation of the new Medical Devices and *In Vitro* Diagnostics Regulations. It explores the decisions you face, so you can understand your organization's preparedness, and begin to plan your transition.
