

Digital trust courses and qualifications

Add value to your organization,
whilst progressing your career

Accelerating digital trust and transformation

Digital development is driving the next generation society. As we become increasingly reliant on a digital economy, it's vital that we build the trust needed for society to benefit.

Our courses and qualifications can help you gain the knowledge and skills needed to build resilience in your organization, whilst developing your career.

Browse our portfolio, covering the key challenges in this rapidly evolving space.

Information security

Cybersecurity

Privacy & data protection

Cloud security

Artificial intelligence

Information security

Protecting personal records and commercially sensitive information is critical. ISO 27001 helps you implement a robust approach to managing information security.

Browse our range of courses and qualifications.

Information security ISO 27001:2022

Our courses provide the ideal next step in your learning journey, including:

- [Awareness and adherence](#)
- [Requirements](#)
- [Implementation / implement changes](#)
- [Lead implementer](#)
- [Internal auditor / Auditor transition](#)
- [Lead auditor / Lead auditor transition](#)

Earn a BSI ISO/IEC 27001 qualification, validating your expertise

ISO 27002:2022 Implementing the Changes

Gain a review of the updated standard from the 2013 to the 2022 version, focusing on the key differences and how to put the changes into action.

ISO/IEC 27005 Risk Management

Master the risk management process related to all assets of relevance for Information Security using the ISO/IEC 27005 standard as a reference framework.

Certificate in Information Security Management Principle (CISMP)

Gain a comprehensive overview of all the key principles in information security, and a widely recognized industry qualification.

Certified Information Security Manager (CISM®)

Gain the skills required to manage, design, oversee and assess and enterprise information security management program.

Certified Information Systems Auditor (CISA®)

Gain global recognition as an information systems expert and the knowledge and skills to successfully audit, control and secure your information system.

Certified Information Systems Security Professional (CISSP)

Build a career in information security. CISSP is a must-have qualification to help you progress.

Additional courses include:

- [Vehicle Cybersecurity ISO/SAE 21434](#)
- [Security Management System ISO 28000](#)
- [Certified in Risk and Information Systems Control](#)

Cybersecurity

Gain the knowledge and skills needed to build resilience around information security and data management with accredited courses.

Browse our growing range of cybersecurity courses.

ICS Managers Security

Learn how to identify what current and emerging threats your ICS environments face, where ICS environments may be vulnerable, and what actions you need to take to secure them.

ICS Practitioners Security

Learn how to protect Industrial Control environments and best identify and support your organization's cybersecurity and risk mitigation/reduction strategies for their ICS environments.

Securing ICS: Becoming an Industrial cybersecurity professional

Learn what ICS is and understand today's cybersecurity challenges facing ICS environments.

Additional courses include:

- [Fundamentals of Computer Forensics](#)
- [Fundamentals of Mobile Application Defence](#)
- [eDiscovery Project Management](#)
- [EC-Council Computer Hacking Forensic Investigator - C|HFIv10](#)
- [EC-Council Certified Security Analyst / Licensed Penetration Tester](#)
- [Certified Lead Privacy Implementer \(CLPI\)](#)
- [Cybersecurity - IoT Security and Privacy - guidelines - ISO/IEC 27400:2022](#)

Privacy and data protection

In today's changing regulatory landscape, make sure you're best prepared to protect personal information and become a recognized privacy professional.

Browse our range of courses and qualifications.

Certified Data Protection Officer

Develop the necessary knowledge, skills and competence to effectively implement and manage a compliance framework regarding the protection of personal data.

Certified Information Privacy Manager (CIPM®)

If you're building a career in Data Protection and Privacy this IAPP certified CIPM course is a must-have qualification to help you progress. A globally recognized certification that demonstrates your competence as a DPO.

Certified Information Privacy Professional Europe (CIPP/E®)

Show you have the comprehensive GDPR knowledge, perspective, and understanding to ensure compliance and data protection success in Europe - and take advantage of the career opportunity this sweeping legislation represents.

Certified Information Privacy Technologist (CIPT®)

The CIPT credential shows you've got the knowledge to build your organization's data protection structures from the ground up.

General Data Protection Regulation (GDPR): Foundation Level

Understand the concept of GDPR and gain knowledge of the fundamentals of the regulation.

GDPR Data Protection and Privacy Implementer/Self Assessor

Gain the confidence to interpret data protection regulations and have greater ability to identify potential non-compliances with the GDPR.

Privacy information management ISO/IEC 27701 Requirements

Understand the principles of ISO/IEC 27701 and the changes required to extend your ISMS.

Privacy information management ISO/IEC 27701 Implementation

Learn how to implement the principles of ISO/IEC 27701 and understand how the requirements provide the basis of an effective PIMS.

Additional courses include:

- Personal Information Management BS 10012
- Payment Card Industry Data Security Standard (PCI DSS) v4.0

Cloud security

Manage cloud security risk, from cloud control implementation and auditing techniques to defining roles and responsibilities for data.

Browse our range of cloud security courses.

Certified Cloud Security Professional (CCSP)

Learn more about cloud computing, mobile security, application development security, risk management, cyber, and more. Gain an understanding of how to apply the 6 Domains covered in the Common Body of Knowledge in practice.

Certificate of Cloud Security Knowledge (CCSK)

Gain the skills to identify security threats and best practices for securing the cloud. Learn how to assess, build, and secure a cloud infrastructure.

Additional courses include:

- [CSA Star Lead Auditor on-demand eLearning](#)
- [Auditing Cloud Security for CSA STAR Certification on-demand eLearning](#)
- [IoT Use Cases and Fundamentals](#)

Artificial intelligence

Navigate the complex and rapidly evolving landscape of Artificial intelligence (AI) regulation.

Browse our growing range of AI courses.

AI Awareness- Understanding the importance of AI in the workplace

Learn how to explain fundamental AI concepts and recognise the harms and benefits of AI. Understand how you can support the responsible use of AI in your organization.

AI concepts and terminology – ISO/IEC 22989:2023 Understanding

This course will provide you with an understanding of the main concepts of AI and AI systems to complement your knowledge of management system standards.

Artificial Intelligence – ISO/IEC 42001:2023 Requirements

Learn to interpret and apply the key concepts and principles of ISO 42001:2023 to existing processes within your organization.

Guidance on Risk Management – ISO/IEC 23894:2023

Turn your reactive organization into a proactive one by gaining an awareness of risk management specifically related to AI.

ISO/IEC 42001:2023 Lead Auditor

This five-day intensive course trains AIMS auditors to lead, plan, manage and implement an Audit Plan as part of an ISO/IEC 42001:12023 AI management system.

Learn in a way that works for you

Access flexible learning in a format that works for you.

We understand that people learn in different ways, so we've devised a range of delivery formats to suit all needs.

Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning – we can provide a format you will be comfortable with.

Live online training

Learn from the comfort of your home, for convenience

On-demand eLearning

Self-paced, online, available 24/7 – for complete flexibility

Classroom-based training

Convenient location and dates, in-person with like-minded learners

In-house training

In-person or online, adapted to your organization's needs

“Tutor was knowledgeable,
made everything easy to
learn and used his experience
of real-life situations to
introduce the validity of each
lesson”
