# Welcome

BSI emphasizes digital innovation and sustainability in our training programs, providing learning opportunities that help individuals build knowledge and skills, supporting both professional growth and organizational success.

Our diverse range of courses and qualifications spans Digital Trust, Health, Safety and Well-being, Quality Management, and Sustainability. Available in person, online, or on-demand, these programs lead to globally recognized BSI qualifications, enabling professionals to enhance their skills and add value to their organizations.

At BSI, we are committed to providing accessible and impactful learning opportunities that empower individuals to grow, adapt, and excel in their respective fields.

We look forward to being a part of your continuous learning and professional development journey with BSI.

Prateek Rai  
Head of Training, BSI India

# Qualifications – explained

## Qualifications from BSI

- A mark of trust for your expertise.

Qualifications validate your expertise as you build a career in your chosen field. At BSI, we provide exciting and innovative qualifications to build your skills and knowledge.

### Practitioner

A Practitioner qualification demonstrates your audit skills ensuring conformance and effectiveness. This qualification shows your commitment to your profession and career projection. Practitioner level qualifications are available for auditing and lead auditing courses from our range

### Professional

A Professional qualification builds on learning from the practitioner stage. Holders of these qualifications demonstrate their higher- level audit skills, critical thinking skills and demonstrate your competence and career aspirations.

### Certified Professional

By becoming a Certified Professional you show you have reached the pinnacle of your learning, with trusted credentials which are aligned to the most senior roles in your organization.

### Available for:

- ISO 9001
- ISO 14001
- ISO 45001
- ISO 27001
- ISO 13485
- ISO 22301
- ISO 20000
- ISO 50001

[View all auditor qualifications](#)

# Digital trust

Understanding digital technology is crucial for developing a sustainable future.

While the speed and convenience of digital ecosystems offer significant advantages, they also introduce potential risks. As we transition to a world where real and virtual environments interact seamlessly, building trust in people, technology, and processes is essential.

# Information security

Protecting personal records and commercially sensitive information is critical. ISO 27001 helps you implement a robust approach to managing information security.

Browse our range of courses and qualifications.

## Information security ISO 27001:2022

Our courses provide the ideal next step in your learning journey, including:

- [Awareness and adherence](#)
- [Requirements](#)
- [Implementation / implement changes](#)
- [Lead implementer](#)
- [Internal auditor](#)
- [Lead auditor / Lead auditor transition](#)

Earn a BSI ISO/IEC 27001 qualification, validating your expertise

## ISO/IEC 27002:2022 Implementing the Changes

Gain a review of the updated standard from the 2013 to the 2022 version, focusing on the key differences and how to put the changes into action.

## ISO/IEC 27005 Risk Management

Master the risk management process related to all assets of relevance for Information Security using the ISO/IEC 27005 standard as a reference framework.

## ISO/IEC 27001:2022 CQI and IRCA Lead Auditor

Provide knowledge and skills required to perform 1st, 2nd and 3rd party ISMS audits against ISO/IEC 27001; in accordance with ISO 19011 and ISO 17021, as applicable.

## ISO/IEC 27701:2019 Privacy Information

Learn to implement principles of data privacy and the effectiveness of the data privacy controls in your organization

## ISO 22301:2019 Business Continuity

Learn every aspects of business continuity planning, from understanding, implementing and auditing

## Payment Card Industry Data Security Standard (PCIDSS)

Learn how to implement PCI DSS Standard requirements successfully in your organization

## CSA Star

Learn about the best practice approaches that suit your organization and build greater resilience when working with the cloud.

# Privacy and data protection

In today's changing regulatory landscape, make sure you're best prepared to protect personal information and become a recognized privacy professional.

Browse our range of courses and qualifications.

## **General Data Protection Regulation (GDPR): Foundation Level**

Understand the concept of GDPR and gain knowledge of the fundamentals of the regulation.

## **Privacy information management ISO/IEC 27701 Requirements**

Understand the principles of ISO/IEC 27701 and the changes required to extend your ISMS.

## **Privacy information management ISO/IEC 27701 Implementation**

Learn how to implement the principles of ISO/IEC 27701 and understand how the requirements provide the basis of an effective PIMS.

## **Privacy information management ISO/IEC 27701 Lead Auditor**

This course provides the knowledge and skill required to carry out audits of privacy controls and principles by your organization or those implemented by suppliers and subcontractors.

## **Privacy information management ISO/IEC 27701 Certified Lead Implementer**

Learn how the implementation of ISO/IEC 27701 provide the basis of an effective PIMS and provides guidance for personally identifiable information (PII) controllers and/or processors, processing PII.

## **Privacy information management and GDPR**

Gain the required skills to conduct a base-line review of your organization's current position and report the effectiveness of the PIMS based on BS 10012:2017 +A1:2018 and GDPR.

# Cloud security

Manage cloud security risk, from cloud control implementation and auditing techniques to defining roles and responsibilities for data.

Browse our range of cloud security courses.

## [ISO/IEC 27018:2019 Protection of PII in Public Clouds](#)

The course will help to ensure that the appropriate information security controls are in place for protecting PII processed by cloud service providers under contract to their customers.

## [CSA STAR](#)

This course gives cloud service providers the ability to prove that their registration to the Cloud Security Alliance's (CSA's) Security, Trust and Assurance Registry (STAR) has been independently assessed against the new CSA STAR certification maturity model.

## [ISO/IEC 27017:2015 Information security in cloud services](#)

This course helps you clearly identify who is responsible to manage the different security risks and ensure the appropriate cloud security controls are in place so you can maintain a resilient ISMS.

# Digital trust

## **ISO/IEC 27001:2022 ISMS**

Learn to establish, implement and continually improve your information security structure.

[Find out more](#)

## **ISO/IEC 27701:2019 PIMS**

Learn to implement principles of data privacy and the effectiveness of the data privacy controls in your organization.

[Find out more](#)

## **ISO 22301:2019 BCMS**

Learn every aspects of business continuity planning, from understanding, implementing and auditing.

[Find out more](#)

## **ISO 31000:2018 Risk Management**

Learn the concepts of risk management with practical tools and methods of implementing risk management.

[Find out more](#)

## **ISO/IEC 20000-1:2018 ITSM**

Learn the fundamental auditing principles and practices relating to ISO/IEC 20000-1 service management requirements so you can help drive continual business improvement.

[Find out more](#)

## **CSA Star**

Learn about the best practice approaches that suit your organization and build greater resilience when working with the cloud.

[Find out more](#)

# Artificial Intelligence (AI)

Artificial intelligence (AI) systems have the power to revolutionize your operations, enhance efficiency, and drive innovation. With our modular and comprehensive suite of AI training, you can confidently and securely unlock the potential of AI.

# Artificial intelligence

Navigate the complex and rapidly evolving landscape of Artificial intelligence (AI) regulation.

Browse our growing range of AI courses.

## [AI concepts and terminology – ISO/IEC 22989:2023 Understanding](#)

This course will provide you with an understanding of the main concepts of AI and AI systems to complement your knowledge of management system standards.

## [Artificial Intelligence – ISO/IEC 42001:2023 Requirements](#)

Learn to interpret and apply the key concepts and principles of ISO 42001:2023 to existing processes within your organization.

## [Guidance on Risk Management – ISO/IEC 23894:2023](#)

Turn your reactive organization into a proactive one by gaining an awareness of risk management specifically related to AI.

## [Understanding and Implementing an AI System Impact Assessment](#)

This course will provide you with the understanding and tools to conduct an AI System Impact Assessment, either in isolation or as part of an ISO/IEC 42001:2023 AI management system.

# AI Management Practitioner

Our AI Management Practitioner qualification equips you with the knowledge and skills to manage the integration, governance, and ethical deployment of AI technologies within your organization, with all courses available on demand for added flexibility.

# AI: Artificial Intelligence

## **ISO 42001:2023 Requirements**

In today's fast paced environment, artificial intelligence is playing a greater role in both our personal and professional lives. AI can help position your place in the market, but there is a need to ensure this is done responsibly.

[Find out more](#)

## **ISO/IEC 42001:2023 Lead Auditor**

Auditing is crucial to the success of any management system. As a result, it carries with it heavy responsibilities, tough challenges and complex problems. This five-day intensive course trains AIMS auditors to lead.,

[Find out more](#)

## **ISO/IEC 42001:2023 Lead Implementer**

Be confident that you can efficiently meet stakeholder expectations with a robust artificial intelligence management system (AIMS). Work with our world-class information security trainers on our Lead Implementer Training Course.

[Find out more](#)

## **ISO/IEC 42001:2023 Implementation**

Improve and protect your organization, share knowledge of AI management and build stakeholder confidence with our ISO/IEC 42001 Implementation Training Course.

[Find out more](#)

## **ISO/IEC 22989:2023 Understanding**

ISO/IEC 42001:2023 is an internationally recognized artificial intelligence management system that allows you to enhance organizational performance and gain a competitive edge when using AI..

[Find out more](#)

## **ISO/IEC 24029-1:2021 Introduction**

Standard ISO/IEC 24029-1:2021. We deep dive into the core of the standard, exploring all its technical parts and the corresponding actionable contents..

[Find out more](#)

# Health, safety & wellbeing

Improving employee health, safety, and well-being enhances organizational success and competitiveness while benefiting the wider community.

Resilient organizations thrive by protecting and promoting both physical and psychological health, fostering a culture of trust and fulfilment.

# Health, safety & wellbeing

## **ISO 45001 Requirements**

Gain an understanding of effective occupational health and safety management in an organization, by providing a framework to prevent work-related injury and ill health to workers and more.

[Find out more](#)

## **ISO 45001 Implementing Changes**

You'll learn best practice to implement the standard and the leadership, delegation and problem-solving skills to make it effective in your organization.

[Find out more](#)

## **ISO 45001 Lead Implementer**

Gain a combined course benefit of ISO 45001 Requirements, Implementer, and Lead Implementer courses and learn the best practice to implement the standard and the leadership, delegation and problem-solving skills

[Find out more](#)

## **ISO 45001 Internal Auditor**

Gain the necessary auditing maintaining or supervising an ISO 45001 to carry out internal audits

[Find out more](#)

## **ISO 45001 Lead Auditor**

gain the skills to plan, conduct, report and follow up an audit in line with ISO 45001

[Find out more](#)

## **ISO 45001 Masterclass**

Implement, maintain and improve the more challenging technical aspects of an occupational health and safety management system (OH&S MS) based on ISO 45001:2015 and related standards in the 45000 series.

[Find out more](#)

# Quality & business improvement

Product and service quality is key to building trust, leading to consumer loyalty and a strong brand image. Quality is a foundational element for the success and longevity of your organization.

Quality is an ongoing process, requiring continuous improvement that permeates your organization's culture, making quality the culture of your organization.

# Quality management ISO 9001

Improved organizational performance, increased customer satisfaction and competitive advantages can be gained through learning in this practice area.

Browse our range of courses designed to build knowledge and confidence in this area.

## **ISO 9001 Senior Management Briefing**

Designed to enable Senior Management teams to identify the core requirements of ISO 9001, regarding the Leadership Team and their commitments.

## **ISO 9001 Awareness**

Help you and your teams understand what quality is, the role of the management system, and the part that each employee plays to achieve the management system's objectives.

## **ISO 9001 Requirements**

This BSI ISO 9001 requirements training course teaches you the key terms, definitions, and foundations of ISO 9001:2015, so you can better meet customer needs.

## **ISO 9001 Implementation**

This course focuses on implementing a framework based on ISO 9001:2015 which can help your organization consistently deliver and drive continuous quality improvement in your products and services.

## **ISO 9001 Lead Implementer**

This lead implementer course is ideal for anyone new to ISO 9001 who needs to take the lead on implementing a management system.

## **ISO 9001 Internal Auditor**

Learn the skills needed to carry out an internal audit. This course is suitable for anyone familiar with ISO 9001, and is delivered through a blend of activities, discussions, and classroom learning.

## **ISO 9001 Lead Auditor (17955) - CQI and IRCA Certified**

Gain a comprehensive overview of ISO 9001. This course looks in depth at internationally recognized auditing standards. On successful completion of the exam, you'll leave with an internationally recognized auditing qualification.

**Earn a BSI ISO 9001 qualification, validating your knowledge and expertise**

# Lean Six Sigma

Learn to keep your business processes lean, drive efficiency and boost customer satisfaction in the process.

**Earn a BSI qualification in Lean, Six Sigma or combined, validating your expertise.**

## **Lean Six Sigma Awareness**

Learn how Lean Six Sigma can assist in achieving objectives and foster a culture of improvement.

## **Lean Six Sigma White Belt**

Learn the history of Lean Six Sigma, and how the ideas, methods, tools, programme structures and roles can help you meet your objectives.

## **Lean Six Sigma Yellow Belt**

Learn problem solving, root cause analysis, and corrective actions (a requirement of ISO 9001).

## **Six Sigma Green Belt**

Discuss, demonstrate and be guided through using powerful Six Sigma Green Belt analytical and technical tools that can be applied to your operational improvement projects.

## **Lean Practitioner**

Learn a simple and effective approach to identifying and removing waste in processes, increasing speed and efficiency of operations.

## **Six Sigma Black Belt**

Learn the analytical and technical tools that can be applied to operational improvement projects.

## **Organizational Change Leader**

This course empowers leaders to drive sustainable improvements aligned with organizational objectives and industry standards.

## **Lean Leader**

Learn to translate Lean project benefits to specific situational environments, identifying issues in organizations that affect quality, cost, and delivery, and designing improvements.

# Process Improvement

- Being agile in an increasingly competitive market can enable an organization to cope with economic conditions and market forces.
- Browse our range of courses designed to build knowledge and confidence in this area.

- **Process Improvement: Introduction**
- This interactive course will provide you with a basic understanding of what is meant by process improvement and its benefits.
- **Process Improvement: Practitioner**
- Learn the approaches and tools necessary for effective process improvement, and how to deploy a process improvement framework that works effectively for your organization.
- **Process Improvement: Professional**
- Learn how to apply process improvement auditing (covering reactive, incremental and stepped change improvements).

# Sector Specific Quality

Raise the bar for your operations, products and services with our sector specific courses, designed to improve your quality management.

Browse our range of courses designed to build knowledge and confidence in this area.

## **Quality in Medical Devices ISO 13485**

Learn how to manage quality by training with our experts. Learn the standard and understand how to implement and audit a QMS.

## **Quality in Healthcare ISO 7101**

Gain a comprehensive overview of the requirements for healthcare quality management systems.

## **Quality in the Built Environment Sector (ISO 9001 and BS 99001)**

Learn the key terms, definitions, and foundations of BS 99001, so you feel best-prepared ahead of certification, enabling a smoother alignment to best practice.

## **Quality in Automotive IATF 16949**

These courses outline everything you need to know about achieving best practice when designing, developing, manufacturing, installing or servicing automotive products.

## **Quality in Aerospace AS 9100**

We have the expertise and global coverage to train and certify to the AS 9100 series of quality standards.

## **Quality in the Food sector**

Demonstrate your commitment to food safety and standards across the entire food and beverage supply chain.

## **Testing and calibration laboratories ISO/IEC 17025**

Explore organizational implications of ISO/IEC 17025; General requirements for competence of testing and calibration laboratories.

# Asset management ISO 55001

Managing assets across their lifecycle is a key challenge for businesses as they grow. An asset management system provides a best practice approach for organizations.

Browse our range of courses designed to build knowledge and confidence in this area.

## **ISO 55001 Awareness**

Having a consistent level of awareness across an organization can support employees to make informed decisions, enabling them to navigate complex situations with clarity and confidence. Ensuring everyone has a shared fundamental understanding of your management system can help embed continual improvement and maximize the benefits of having ISO 55001.

## **ISO 55001 Requirements**

The effective management of assets is becoming increasingly important to organizations and their interested parties. This comprehensive one-day course explores in depth the organizational implications of the international standard for asset management.

## **ISO 55001 Implementation**

Be confident that you can efficiently meet the organization's expectations with a robust asset management with our world-class asset management trainers on our Implementation Training Course to ensure your asset management system ISO 55001 compliant.

## **Asset Management: System Lead Auditor of ISO 55001:2014**

Gain essential knowledge and skills an internal auditor needs, along with the areas your Certification Body (CB) will be generally looking for to comply with generic internal auditing requirements in management system standards.

# Service management ISO/IEC 20000-1

Show service quality is at the heart of your organization. ISO/IEC 20000-1 is commonly used for IT services, facilities management and business services to help ensure effective and resilient services in today's changing service delivery environment.

Browse our range of courses.

## **ISO/IEC 20000-1 Management Briefing**

Designed to enable Senior Management teams to identify the requirements of ISO/IEC 20000-1, regarding the Leadership Team and their commitments.

## **ISO/IEC 20000-1 Awareness**

Help you and your teams understand what service management is, the role of the management system, and the part that each employee plays to ensure conformity.

## **ISO/IEC 20000-1 Requirements**

This ISO/IEC 20000-1 requirements training course teaches you the key terms, definitions, and foundations of ISO/IEC 20000-1, so you can better meet the requirements.

## **ISO/IEC 20000-1 Implementation**

This course focuses on implementing a framework based on ISO/IEC 20000-1 which can help your organization consistently deliver and drive improvements.

## **ISO/IEC 20000-1 Lead Implementer**

This ISO/IEC 20000-1 lead implementer training course is ideal for anyone new to ISO/IEC 20000-1 who needs to take the lead on implementing a management system.

## **ISO/IEC 20000-1 Internal Auditor**

This course is suitable for anyone familiar with ISO/IEC 20000-1, and is delivered through a blend of activities, discussions, and classroom learning.

# Facility Management ISO 41001

Looking to embed consistent and effective facility management? Training to the International Facilities Management Standard (FMS) is a great way to get started.

ISO 41001:2018 provides a framework for facilitating effective and efficient FM structures and resourcing. It's about recognizing the scope of responsibilities and creating a management structure and resource appropriate to the needs of the organization.

Browse our range of courses designed to build knowledge and confidence in this area.

## ISO 41001 Awareness

This course provides the basis for a common interpretation and understanding of facility management systems (FMS) and the ways in which it can benefit organizations of all kinds.

## ISO 41001 Implementation

This course will equip you with the required skills to conduct a base-line review of your organization's current position and implement the key principles of ISO 41001. Using a step-by-step approach, you'll learn how to develop an implementation plan, create necessary documentation and monitor your Facility Management System (FMS).

## ISO 41001 Internal Auditor

This course develops the necessary skills to assess and report on the conformance and implementation of processes based on ISO 41001. Learn how to initiate, prepare and conduct audit activities, compile and distribute audit reports, and complete follow-up activities.

## ISO 41001 Lead Auditor

This ISO 41001:2018 lead auditor training course teaches the fundamental auditing principles and practices, in conformance with national and international accepted norms and regulations relating to facilities management system (FMS) requirements.

# Sustainability

Sustainability is a multifaceted and fast-evolving topic. By taking action across a range of environmental, social, and governance (ESG) issues your organization can be an agent of positive change.

# Environmental management ISO 14001

Embed environmental management best practice, supporting your organization's mission to make a positive impact on the climate, natural resource quality, habitats and communities.

**Browse our range of courses and qualifications.**

## **ISO 14001 Awareness**

Help your teams understand what ISO 14001 is, why it's important and how they can contribute to effective environmental management.

## **ISO 14001 Requirements**

Learn the history, key terms and definitions of ISO 14001:2015, giving you the knowledge to stimulate sustainable growth.

## **ISO 14001 Implementation**

Develop the knowledge and skill required to implement an ISO 14001:2015 Environmental Management System (EMS).

## **ISO 14001 Lead implementer**

Learn about ISO 14001 requirements, how to implement an EMS and develop the leadership skills required to manage a robust system.

## **ISO 14001 Internal auditor**

Learn the key principles and practices of effective EMS audits in accordance with ISO 14001 and ISO 19011.

## **ISO 14001 Lead auditor**

Demonstrate your commitment to a sustainable model by transforming existing auditor skills to ISO 14001.

## **CQI and IRCA Certified Lead Auditor Training Course (17903) - ISO 14001:2015**

This ISO 14001 lead auditor course helps you develop the skills required to carry out a full environmental management system (EMS) audit.

## **ISO 14001 Senior Management Briefing**

Help business leaders understand how they will be involved, and the commitment required supporting an effective implementation.

Earn a BSI ISO 14001 qualification, validating your knowledge and expertise.

# Energy management ISO 50001

An energy management system can help you cut your energy costs and reduce your environmental impact.

Our courses are designed to help you understand and implement an energy management system based on ISO 50001 with confidence.

## **ISO 50001 Awareness**

Help you and your teams understand what energy management is, why it's important and how you can contribute to effective energy management in your organization.

## **ISO 50001 Requirements**

This BSI ISO 50001 training course teaches you the history, key terms and definitions of ISO 50001, giving you the knowledge to stimulate sustainable growth.

## **ISO 50001 Implementation**

Develop the knowledge and skill required to implement an ISO 50001 Energy Management System (EnMS).

## **ISO 50001 Lead implementer**

Learn about energy management system (EnMS) requirements, how to implement an EnMS and how to identify the leadership skills required to manage a robust system.

## **ISO 50001 Internal auditor**

Learn the key principles and practices of effective EnMS audits in accordance with ISO 50001 and ISO 19011. Using a step-by-step approach, you'll be guided through the audit process from initiation to follow-up.

## **ISO 50001 Lead auditor**

Demonstrate your commitment to a sustainable model by transforming existing auditor skills to ISO 50001.

## **ISO 50001 Senior Management Briefing**

Help business leaders understand how they will be involved, and the commitment required supporting an effective implementation.

Earn a BSI ISO 50001 qualification, validating your knowledge and expertise.

# Greenhouse Gas training courses

Our training courses help organizations take the first steps towards achieving Net Zero. Starting by understanding sources of GHG emissions, establishing an inventory of direct and indirect emissions, and quantifying these enabling carbon reduction management planning and setting targets, on the pathway to Net Zero.

## **Environmental Management Systems (ISO 14001)**

These courses focus on delivering and implementing Environmental Management Systems, which will enable and support an organization's journey to Net Zero. Learn to recognize some of the risks associated with poor environmental management.

## **Energy Management Systems (ISO 50001)**

These courses focus on delivering and implementing Energy Management Systems, which will enable and support an organization's journey to Net Zero. Learn how you are a vital piece of the jigsaw and what you can do to help your organization.

## **ISO 14064-1:2018 Requirements**

Develop an understanding of the key terms, definitions and requirements of ISO 14064-1:2018. Learn how the standard can help your organization to quantify its greenhouse gas emissions that is relevant, complete, consistent, accurate and transparent.

## **Carbon Management Planning (CMP)**

This course focuses on the implementation of related standards, including ISO 14064, ISO 14068, and ISO 14090, that have been developed specifically to help organizations manage their GHG emissions, and address the risks associated with climate change.

## **Greenhouse Gas Verification and Validation (ISO 14064-3:2019)**

This course will give you an understanding of the principles and processes involved in conducting verification and validation of GHG statements and GHG reports. You will also learn how to design a framework to measure and report on your organization's GHG emissions.

## **Climate Change Management – Carbon Neutrality (ISO 14068-1:2023)**

Learn the key principles and practices of carbon neutrality, following a hierarchy on the pathway to Net Zero outlined by ISO 14068-1. This course will help individuals to:

- Know and understand the key terms, definitions, and process of becoming carbon-neutral
- Learn the differences and relationship between carbon neutrality and net zero
- Understand the relationship between carbon neutrality and associated GHG emissions and removals quantification and reporting requirements
- Plan the activities necessary to achieve carbon neutrality status
- Know and identify when carbon offsetting is appropriate and how carbon credits work
- Appreciate the importance of verifying/validating declarations of carbon neutrality

## **Quantifying the carbon footprint of products (ISO 14067:2018)**

Calculating the carbon footprint of products (CFP) is becoming increasingly relevant for businesses that want to demonstrate to their customers that they are reducing the GHG emissions of the products that they consume. This course will help you to:

- Comprehend the key principles for determining the carbon footprint of a product
- Quantify and report on the GHG emissions of your product(s).

## **Carbon management in buildings and infrastructure (PAS 2080:2023)**

PAS 2080 outlines a carbon management process for the built environment, that is applicable across both buildings and infrastructure. This course will help you to:

- Outline the drivers, benefits, and advantages of effective carbon management in built environment systems.
- Outline the terminology and key principles of decarbonization and carbon reduction hierarchy, required of PAS 2080
- Support operational and strategic buildings and infrastructure projects and programmes, to deliver carbon reduction and net zero targets

# Additional focus courses

These courses focus on additional key sustainability topics.

## Water Efficiency

### [Water Efficiency Management Systems Awareness ISO 46001 on-demand eLearning](#)

Learn what water efficiency management is, why it is important and how your organization manages their water efficiency management performance. Consider how you are a vital piece of the jigsaw and what you can do to help your organization.

### [Water Efficiency Management Systems Requirements ISO 46001 on-demand eLearning](#)

This course outlines the requirements of ISO 46001:2019 water efficiency management systems, aiming to help and enable organizations to assess and account for their water use, and to identify, plan and implement measures to achieve water savings through the systematic management of water.

## Sustainable Events

### [Sustainable events management ISO 20121](#)

Sustainability Management for Events turns concepts into common sense solutions. Gain skills to design, implement and maintain a management system to deliver immediate results.

## Sustainable Events

### [Carbon Management in Buildings and Infrastructure PAS 2080](#)

Enhance your organization's environmental reputation in support of wider sustainability development goals.

## Social Accountability

### [Social Accountability SA 8000](#)

Upskill employees and your supply chain in the purpose, role, and requirements of the standard and how it can add value to an organization.

## Additional courses include:

- [UN SDGs](#)
- [Modern Slavery BS 25700](#)
- [Introduction to Sustainability Reporting](#)
- [Introduction to the Corporate Sustainability Reporting Directive \(CSRD\)](#)
- [Introduction to the Circular Economy in Organizations](#)
- [Sustainable Procurement Awareness ISO 20400](#)
- [Browse our full range of courses here](#)

# Sustainability

## **Global Reporting Initiative (GRI)**

Enables organizations to establish the systems and processes necessary to conduct stakeholder engagements, analyze the inputs and thereby develop their strategy for Sustainable Development.

[Find out more](#)

## **Corporate Sustainability Reporting Directive (CSRD)**

Provide organizations with knowledge and insights into sustainability reporting and specifically providing an introduction to the CSRD and the ESRS.

[Find out more](#)

## **Business Responsibility and Sustainability reporting (BRSR)**

SEBI framework requirements for reporting uses an activity-based, delegate-centered approach. This course is developed by the BSI and delivered through experience ESG professionals.

[Find out more](#)

# Governance, risk & compliance

Our Governance, Risk and Compliance (GRC) courses will provide you with an awareness of the processes you can implement to help your organization achieve business objectives and act with integrity.

Gain the knowledge and skills needed to embed good business practices into everyday life - enabling your organization to seize opportunities, stay ahead of uncertainty, and meet stakeholder expectations.

# Governance, risk & compliance

## **ISO 31000:2018 Risk Management Introduction**

This course gives you an understanding risk management will provide the foundation you need to start managing your organization's risks effectively.

[Find out more](#)

## **ISO 31000:2018 Risk Management Implementation**

This course has been designed to help industry in institutionalizing risk management practices within their organization and how to implement the principles and guidelines of risk management system based on ISO 31000:2018.

[Find out more](#)

## **ISO 31000 Risk Management Internal Auditor**

To provide guidance and practical experience in planning, executing, reporting and audit follow-up of an internal audit in accordance with ISO 19011:2018.

[Find out more](#)

## **Organization Resilience-Introduction**

This course highlights the features of management systems, the key concepts and principles, and the advantages that can be gained through external, third party, accredited certification of a management system to defined management system standard.

[Find out more](#)

## **ISO 28000:2022 Internal Auditor**

Gain confidence in planning and performing an effective audit, as well as reporting and assessing corrective action where necessary.

[Find out more](#)

## **ISO 22301:2019 Implementation**

This course help you to identify and protect business critical functions, building resilience and capability to continue operating during unexpected events.

[Find out more](#)

# ICT

In this ever-evolving realm, the importance of bolstering your organization's cybersecurity through effective governance to inspire trust with users and your supply chain becomes paramount.

Meanwhile, the potential to leverage digital tools to drive informed sustainability decisions empowers your capacity to navigate the intricate interplay between technology and environmental responsibility.

# ICT

## **ISO/IEC 27001:2022 ISMS**

Learn to establish, implement and continually improve your information security structure.

[Find out more](#)

## **ISO/IEC 27701:2019 PIMS**

Learn to implement principles of data privacy and the effectiveness of the data privacy controls in your organization.

[Find out more](#)

## **ISO 22301:2019 BCMS**

Learn every aspects of business continuity planning, from understanding, implementing and auditing.

[Find out more](#)

## **ISO 31000:2018 Risk Management**

Learn the concepts of risk management with practical tools and methods of implementing risk management.

[Find out more](#)

## **ISO/IEC 20000-1:2018 ITSM**

Learn the fundamental auditing principles and practices relating to ISO/IEC 20000-1 service management requirements so you can help drive continual business improvement.

[Find out more](#)

## **CSA Star**

Learn about the best practice approaches that suit your organization and build greater resilience when working with the cloud.

[Find out more](#)

# Transport & mobility

The transport sector is going through huge transformation. Advances in digital technologies and a need to become more sustainable is driving that change.

Transformation in the sector is being driven by decarbonization and digitization – creating greater connectivity, automation and interoperability. However, with these advances come new safety, cybersecurity and privacy challenges.

# Transport & mobility

## IATF 16949

Outlines everything you need to know about achieving best practice when designing, developing, manufacturing, installing or servicing automotive products .

[Find out more](#)

## Certified Automotive Quality Professional (CAqP)

Acquire in-depth knowledge and application insights for a process-based quality model implementation rather than just focus on compliance.

[Find out more](#)

## Measurement Systems Analysis (MSA)

Learn about methods used to assess the quality of a measurement system, and to understand the sources of variation present and the impact on the measurement result.

[Find out more](#)

## Potential Failure Mode and Effects Analysis (FMEA)

Learn how FMEA can be used to evaluate the risks associated with product and process design.

[Find out more](#)

## Introduction to VDA ISA based on TISAX®

demonstrate a solid consideration of information security to your customers as well as within your organization which also secures your competitive advantage.

[Find out more](#)

# Built environment

The built environment is a complex interaction between design, construction, operations, and decommissioning, representing the four stages of the asset lifecycle.

In the face of these intricacies, you hold the key to creating liveable and workable spaces that benefit everyone.

# Built environment

## **BIM Fundamentals On-Demand Training Course**

This two-day course explains why the UK government has adopted 'Collaborative BIM' to reduce waste in construction and asset management.

[Find out more](#)

## **BIM ISO 19650 Part 2: Training Course**

This course will help you understand the information management processes that are needed for a design and construction project to be delivered using BIM according to ISO 19650 Part 2: Project Delivery Phase

[Find out more](#)

## **BIM ISO 19650-3: Information Management Operational Phase Online Training**

This course will help you understand the asset information management process set out in ISO 19650-3 and how this links with other parts of the ISO 19650 series.

[Find out more](#)

## **BIM ISO 19650 Part 4: Training Course**

This course will help you in obtaining the benefits of the ISO 19650 / UK BIM Framework digital information exchange between design/supply chain and the client/operator.

[Find out more](#)

## **BIM Part 5: Security & BIM Training**

The course will guide you through the contents of ISO 19650-5 and how security impacts their roles (client, asset owner, designer, contractor, facilities manager, etc.).

[Find out more](#)

## **BIM Part 6: Health & Safety Training**

This course will help you obtain the benefits of structured health and safety information and its digital information exchange amongst design/supply chain and the client/operator.

[Find out more](#)

# Food & retail

Embracing sustainability and safety is the bedrock of progress in the food and retail industry.

Unlock the potential for positive change in the food and retail sector by prioritizing sustainability through innovation and best practices.

# Food & retail

## ISO 22000

Our Food Safety Management System courses are activities based, resulting in a deeper understanding of material and a greater, immediate impact of job performance

[Find out more](#)

## BRCGS

Learn how to undertake a BRCGS audit, including effective planning, conducting and reporting of the audit.

[Find out more](#)

## FSSC 22000

Food safety system certification is ISO based, internationally accepted certification scheme for auditing and certification of food safety within the food and beverage manufacturing sector.

[Find out more](#)

## Food safety culture

Encouraging the right behaviors and actions within the food organization has become known as a culture of food safety. While the concept isn't new, the path to a culture of safety hasn't been always clear

[Find out more](#)

## HACCP

Our range of HACCP and Food Handling Skills courses teach individuals and groups how to manage food safely, and competency in risk analysis and hazard management

[Find out more](#)

## Food Fraud Prevention (VACCP)

Assure the authenticity of your food ingredients and packaging by minimizing vulnerabilities through a risk assessment of your supply chain.

[Find out more](#)

# Food & retail

## Introduction to Food Safety Culture

This training course will introduce you to the concept of culture related to food safety within organizations, and the benefits of strengthening your own organizational food safety culture.

[Find out more](#)

## Understanding and Improving your Culture of Food Safety

Food safety culture is defined by the Global Food Safety Initiative (GFSI) as 'shared values, beliefs and norms that affect mind-set and behaviour toward food safety in, across and throughout an organization

[Find out more](#)

## Food Safety Foundation On-demand Training

This course is ideal for those who are new to the food industry or to food safety, in food production roles, or other roles where a good basic knowledge of food safety and hygiene is important.

[Find out more](#)

## Level 3 Guide to Writing a HACCP Plan

Preventative food safety risk management is a fundamental requirement in all food safety compliance standards. The CODEX Recommended International Code of Practice, General Principles of Hygiene and the HACCP approach

[Find out more](#)

# Healthcare

To meet stakeholders' demands for sustainability, healthcare, pharmaceutical and healthtech organizations must address the environmental impact of product lifecycles, embrace secure technology, ensure care quality, and increase access of medicines and care globally to shape the future of the industry.

# Healthcare

## **Introduction to Good Manufacturing Practice**

This course is intended to provide you with an introduction to the fundamental principles of pharmaceutical GMP (PIC/S), the regulatory environment and product realization through market authorization, manufacturing, and lifecycle requirements.

[Find out more](#)

## **Introduction to Good Distribution Practice**

The course is designed to provide you with general knowledge of pharmaceutical GDP, the regulatory environment and the impact through market authorization, distribution, and lifecycle of pharmaceutical products.

[Find out more](#)

## **ISO 7101 Executive Overview Briefing**

Adopting ISO 7101:2023 elevates healthcare quality, enhances patient safety, optimizes costs, boosts operational efficiency, and strengthens reputation—expanding existing as well as unlocking new market opportunities.

[Find out more](#)

## **ISO 7101 Internal Auditor Training**

This course instructs internal auditors how to use a systematic approach to assess the conformity and effectiveness of a healthcare organization's quality management system (HQMS) against the requirements of ISO 7101.

[Find out more](#)

# Client stories

To brush up your skills and master then you have come to the right place be it teaching field or office workplace. I have taken five certifications from BSI, and I would never hesitate in taking up another course from BSI again when the certificate gets revised, or I must attend one more course from them. **Ravi Batra-IMSS Engineer C1/Mr., Happiest Mind Technologies.**

I attended lead auditor course for ISO 9001:2015 from BSI and found it very effective. This really helped me to enhance my auditing skills, therefore I decided to complete my other lead auditor courses for ISO 14001:2015 & ISO 45001:2018 from BSI only. **Mr. S Karthik**

Thank you for your extensive support and guidance though the last several days helping us understand more about ISO 27001, guide us to further improve our processes. We at ZS Associates really appreciate all your efforts and support. **Ali Khan, ZS Associates India Pvt. Ltd.**
