

Delivering low-carbon infrastructure with PAS 2080 webinar

23rd September 2025

Introductions

Department
for Transport

Ella Taylor

Ella is Head of Infrastructure Decarbonisation Policy at Department for Transport. Since 2023, she's focused on aligning projects with PAS2080 and driving cost-effective carbon reduction. A Civil Servant for 13 years, she's also worked on 5G, broadband rollout, and urban mobility strategy.

Drew Strongman

Drew is Head of Product at Low Carbon Materials (LCM), a climate tech company developing carbon-negative materials for construction. He leads product strategy, technical engagement, and customer trials, and was instrumental in achieving PAS 2080 certification with BSI.

Rahul Shah

Rahul, is Global Director, Built Environment BSI. With over 24 years' experience, he drives digital innovation and sustainability in construction and infrastructure, helping organizations tackle climate change, regulatory changes, and supply chain resilience through best practices and standards.

How familiar are you with PAS
2080 and its principles?
