Progress towards your ideal future

Our ISO and business improvement courses are designed to give you the knowledge and skills to add more value to your organization, whilst developing your career.

With the BSI Academy, you can benefit from relevant courses that are continually updated with the latest global trends and regulatory changes.

Where will your learning journey take you?

Welcome

At BSI, our focus is on supporting you to build knowledge and skills which add value to your organization, whilst developing your career.

Our range of courses & qualifications span Digital Trust, Health, Safety and Well-being, Quality Management, and Sustainability. Delivered in person, online or on-demand – our courses lead to globally recognized BSI qualifications that enable you to increase skills and demonstrate your value to your organization.

I'm proud to be part of the BSI team which provides access to impactful learning and development allowing you to develop and grow.

We look forward to supporting you on your learning journey with BSI.

Tracey Walsh
Training Business Manager

New to 2024:

- Artificial Intelligence, ISO/IEC 42001 and ISO/IEC 22989
- Greenhouse gas, ISO 14064, Carbon Management Planning and ISO 14068
- Food Safety Culture - Introduction, developing and leading
- EU Medical Device Regulation (MDR) 2017/745 – QMS Auditor
- Cybersecurity and Data Protection for Small Businesses
- Quality Management Systems for Small Businesses
- Awareness Modules
- New qualification pathways
- Food Safety Supervisor

Learn in a way that works for you

Access flexible learning in a format that works for you.

We understand that people learn in different ways, so we've devised a range of delivery formats to suit all needs.

Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning – we can provide a format you will be comfortable with.

Live online training

Learn from the comfort of your home, for convenience

On-demand eLearning

Self-paced, online, available 24/7 – for complete flexibility

Classroom-based training

Convenient location and dates, in-person with like-minded learners

In-house training

In-person or online, adapted to your organization's needs

Qualifications – explained

Qualifications from BSI
– a mark of trust for your expertise.

Qualifications validate your expertise as you build a career in your chosen field. At BSI, we provide exciting and innovative qualifications to build your skills and knowledge.

Practitioner

A Practitioner qualification demonstrates your audit skills ensuring conformance and effectiveness. This qualification shows your commitment to your profession and career projection.

Professional

A Professional qualification builds on learning from the practitioner stage. As a Professional you demonstrate your higher-level skills, critical thinking skills and demonstrate your competence and career aspirations.

Certified Professional

By becoming a Certified Professional you show you have reached the pinnacle of your learning, with trusted credentials which are aligned to the most senior roles in your organization.

Available for:

- Digital trust
- Health, safety & well-being
- Quality & business improvement
- Sustainability
- Governance, risk & compliance
- Food
- Built environment
- Medical devices

Pathways – explained

BSI's comprehensive training solutions empower organizations to achieve operational excellence. Our programs span a wide range of critical areas, from process improvement methodologies to robust organizational resilience strategies. We provide tailored training for all levels, including senior management briefings and practical skills development, such as root cause analysis.

Understanding

Gain a comprehensive understanding of management system standards with BSI's introductory and requirements courses.

Implementation

Maximize the value of your management system through BSI's best-practice implementation training.

Specialist

Drive performance excellence and unlock your organization's full potential with BSI's specialization-focused training.

Auditing

Validate the effectiveness of your management system with BSI's comprehensive auditor training.

Build capability across your organization

We offer a range of training and qualification programs tailored to align with your strategic goals and support your organization. By partnering with you to understand your vision, learning needs and objectives, we create impactful training solutions that can be implemented organization-wide.

Our comprehensive approach addresses various challenges, including managing compliance with evolving standards, developing talent through targeted programs, and maintaining skill sets amidst personnel changes. Our solutions aim to enhance best practices, boost efficiency, and ensure organizational resilience through effective business continuity and disaster recovery strategies.

Working in partnership, we can support your organization, whatever the size, sector, or wherever you are on your learning journey.

Artificial Intelligence (AI)

Artificial intelligence (AI) systems have the power to revolutionize your operations, enhance efficiency, and drive innovation. With our modular and comprehensive suite of AI training, you can confidently and securely unlock the potential of AI.

Artificial Intelligence (AI)

ISO/IEC 22989:2023 Understanding AI Concepts and Terminology

Build a strong foundation in AI concepts and management system standards, essential for anyone working with AI systems.

Prerequisite: N/A

Price: \$995

Duration: 1 day

[Find out more](#)

ISO/IEC 22989:2023 Understanding AI Concepts and Terminology On-demand eLearning

Master the key AI terms and concepts from ISO/IEC 22989 to effectively manage an ISO/IEC 42001 compliant AI Management System (AIMS).

Prerequisite: N/A

Price: \$545

Duration: 4 hours

[Find out more](#)

ISO/IEC 42001:2023 AI Awareness On-demand eLearning

Understand AI's importance and manage its risks. Discover your role in leveraging AI for your organization's success.

Prerequisite: N/A

Price: \$59

Duration: 30 minutes

[Find out more](#)

ISO/IEC 42001:2023 AI Requirements

Master the essentials of an effective AI Management System (AIMS). This course will guide you through ISO 42001's structure and requirements, enabling you to confidently apply its key concepts and principles to your organization's existing processes.

Prerequisite: N/A

Price: \$895

Duration: 1 day

[Find out more](#)

ISO/IEC 42001:2023 AI Requirements On-demand eLearning

Understand the structure and requirements of an effective AI Management System (AIMS). Master ISO 42001 terminology and apply its principles to your organization's existing processes.

Prerequisite: N/A

Price: \$545

Duration: 4 hours

[Find out more](#)

ISO/IEC 42001:2023 AI Implementation

Sustainability

ISO 50001:2018 Energy Management Awareness On-demand eLearning

Understand energy management, its importance, associated risks, and how to improve your organization's energy performance.

Prerequisite: N/A
Price: \$59
Duration: 30 minutes

[Find out more](#)

ISO 50001:2018 Energy Management Requirements On-demand eLearning

Gain a comprehensive understanding of ISO 50001 and Energy Management Systems with the convenience of online, self-paced learning.

Prerequisite: N/A
Price: \$445
Duration: 4 hours

[Find out more](#)

ISO 50001:2018 Energy Management Implementing

Learn the fundamentals of energy management, including ISO 50001 requirements, and how to implement and maintain an effective Energy Management System.

Prerequisite: Completion of an Energy Awareness course and an ISO 50001 Requirements Training Course (see ISO 50001 Requirements course).
Price: \$1795
Duration: 2 days

[Find out more](#)

ISO 50001:2018 Energy Management Lead Auditor

Develop the skills to lead effective second-party Energy Management Systems audits, covering all stages from planning to follow-up.

Prerequisite: Knowledge of management systems (including the PDCA cycle), energy management principles (including energy sources, efficiency, and performance indicators), and ISO 50001 requirements.
Price: \$4145
Duration: 5 days

[Find out more](#)

ISO 14068-1:2023 Carbon Neutrality Requirements

Provide knowledge and understanding of carbon neutrality and how to use ISO 14068-1 in your organization to achieve carbon neutrality, on the pathway to Net Zero.

Prerequisite: N/A
Price: \$995
Duration: 1 day

[Find out more](#)

ISO 14068-1:2023 Climate Change Management – Carbon Neutrality

Gain clear guidance on achieving carbon neutrality, including developing a management plan, quantifying your carbon footprint, and utilizing offsets.

Prerequisite: N/A
Price: \$1495
Duration: 2 days

Sustainability

Carbon Management Planning

Develop a comprehensive carbon management plan using science-based methodologies to reduce Greenhouse Gas (GHG) emissions and adapt to climate change.

Prerequisite: A copy of PAS 2060 is required for this course (available at <https://shop.bsigroup.com>).

Price: \$1495

Duration: 2 days

[Find out more](#)

PAS 2060:2014 - Module 1 - Road to Net Zero: Terminology and Principles

Introduce senior leaders to the Road to Net Zero, covering key principles, terminology, and the roadmap to achieving carbon neutrality.

Prerequisite: A copy of PAS 2060 is required for this course (available at <https://shop.bsigroup.com>).

Price: \$195

Duration: 2 hours

[Find out more](#)

PAS 2060:2014 - Module 2 - Making a Commitment to Carbon Neutrality

Assess the level of offset required following the implementation of the carbon footprint management plan to make the declaration of achieving carbon neutrality.

Prerequisite: Knowledge of climate change principles and the Road to Net Zero (see "Road to Net Zero: Terminology and Principles" course).

Price: \$295

Duration: 4 hours

[Find out more](#)

PAS 2060:2014 - Module 3 - Implementing Your Carbon Footprint Management Plan

Develop your delivery strategy, projects, and tools to meet your carbon footprint management plan commitments.

Prerequisite: Knowledge of climate change principles and the Road to Net Zero (see "Road to Net Zero: Terminology and Principles" course).

Price: \$295

Duration: 4 hours

[Find out more](#)

ISO 14064-1:2018 Greenhouse Gas Requirements

Master the requirements of ISO 14064-1 for quantifying and reporting Greenhouse Gas Emissions.

Prerequisite: Some knowledge of the standard and global warming issues will be beneficial.

Price: \$1395

Duration: 2 days

[Find out more](#)

ISO 14067:2018 Quantifying the Carbon Footprint of Products

Understand ISO 14067 and how to quantify the carbon footprint of products (CFP) using best practices in Life Cycle Assessment (LCA) and reporting.

Prerequisite: Completion of ISO 14064-1 and Carbon Management Planning courses is required.

Price: \$1495

Duration: 2 days

Sustainability

Reporting with GRI standards 2021

This course is designed to help participants understand the Sustainability Reporting process as per the Global Reporting Initiative (GRI) Standards. The training enables organizations to establish the systems and processes necessary to conduct stakeholder engagements, analyze the inputs and thereby develop their strategy for Sustainable Development.

Prerequisite: It will be useful for delegates to read the relevant standards before attending the course. A basic understanding of sustainability topics would be helpful.

Price: \$2595

Duration: 2 days

[Find out more](#)

BS 25700 Modern Slavery Introduction

Develop a deeper understanding of modern slavery and equip your organization to identify and mitigate related risks.

Prerequisite: N/A

Price: \$195

Duration: 2 hours

training.aus@bsigroup.com

Social Accountability 8000 Awareness On-demand eLearning

This course offers a foundational understanding of social accountability requirements, providing participants with the knowledge necessary to support the implementation and auditing of these practices within their organizations.

Prerequisite: N/A

Price: \$59

Duration: 30 minutes

[Find out more](#)

Social Accountability 8000 Requirements On-demand eLearning

Gain a foundational understanding of social accountability and learn how to implement and audit responsible practices based on SA 8000. This self-paced course helps you contribute to a more ethical and equitable workplace.

Prerequisite: N/A

Price: \$445

Duration: 3.5 hours

[Find out more](#)

ISO 20400 Sustainable Procurement Awareness On-demand eLearning

Learn procurement principles and the "five rights of procurement" and how they contribute to sustainable procurement.

Prerequisite: N/A

Price: \$35

Duration: 30 minutes

[Find out more](#)

ISO 20400 Sustainable Procurement Introduction On-demand eLearning

The course explains how procurement is impacted by, and impacts on, issues of social, environmental, and economic sustainability.

Prerequisite: N/A

Price: \$345

Duration: 3 hours

[Find out more](#)

Greenhouse Gas (GHG) Qualifications

Qualifications build knowledge and skills both for the individual and organization to reach Greenhouse Gas objectives.

The **practitioner** level qualification is ideal for individuals who are involved or working towards being involved in Greenhouse Gas reduction plans.

The **professional** level builds Greenhouse Gas knowledge to support an organization's path towards net-zero.

Our learning pathway validate learning with examinable results, earning industry recognized qualifications.

Key

ILT – instructor led learning

VILT – Virtual instructor led learning

OD – on-demand eLearning

Greenhouse Gas Practitioner

Comprised of these courses:

- ISO 14064-1 (organization)**
- Carbon Management Planning (CMP)
- ISO 14064-3 (verification)

Delivery method:

**On-Demand and ILT/VILT
ILT/VILT

Ideal for:

- GHG/carbon reduction and management practitioners, engineers and facilities managers with knowledge and experience of related disciplines and standards such as environmental and energy management systems including ISO 14001 and ISO 50001
- Individuals interested or required to support carbon reduction plans
- Policy analyst, consultant, sustainability manager
- Verifier, assessor, auditor, implementor

Greenhouse Gas Professional

Comprised of these courses:

- ISO 14067 Quantifying the Carbon Footprint of Products
- ISO 14068-1 Carbon Neutrality

Delivery method:

ILT/VILT

Ideal for:

- GHG/carbon reduction and management professionals, developing and leading the implementation of carbon reduction management programs
- Functional head, project leader, senior consultant
- Lead verifier, lead assessor, lead auditor, lead implementer

Governance, risk & compliance

Our Governance, Risk and Compliance (GRC) courses will provide you with an awareness of the processes you can implement to help your organization achieve business objectives and act with integrity.

Gain the knowledge and skills needed to embed good business practices into everyday life - enabling your organization to seize opportunities, stay ahead of uncertainty, and meet stakeholder expectations.

Governance, risk & compliance

ISO 22301:2019 Business Continuity Requirements

Apply the requirements of ISO 22301 to create and maintain a Business Continuity Management Systems (BCMS) that ensures business continuity.

Prerequisite: N/A

Price: [Request a quote](#)

Duration: 1 day

[Find out more](#)

ISO 22301:2019 Business Continuity Requirements On-demand eLearning

Learn ISO 22301 at your own pace with this flexible online course. Ideal for self-directed learners.

Prerequisite: N/A

Price: \$445

Duration: 4 hours

[Find out more](#)

ISO 22301:2019 Business Continuity Implementation

Learn how to establish a business continuity management system within your organization and clarify roles and responsibilities during disruption.

Prerequisite: Familiarity with BCMS concepts and terminology is recommended. Consider ISO 22301 Requirements course.

Price: [Request a quote](#)

Duration: 2 days

[Find out more](#)

ISO 22301:2019 Business Continuity Lead Implementer

Learn to identify and protect business critical functions, build organizational resilience and capability to continue operating during unexpected events. Understand how to minimize downtime, speed up recovery time and reassure stakeholders.

Prerequisite: N/A

Price: [Request a quote](#)

Duration: 5 days

[Find out more](#)

ISO 22301:2019 Business Continuity Internal Auditor

Learn how to perform internal audits and self-assessments against the requirements of ISO 22301.

Prerequisite: Knowledge of ISO 22301 and Business Continuity Management Systems (BCMS) principles (see ISO 22301 Requirements course).

Price: [Request a quote](#)

Duration: 2 days

[Find out more](#)

ISO 22301:2019 Business Continuity Lead Auditor

Develop the skills and knowledge to establish a robust Business Continuity Management Systems (BCMS) that ensures business continuity in the face of disruptions.

Prerequisites: Knowledge of management systems (including the PDCA cycle and core elements), business continuity management concepts (including BIA, risk assessment, and business continuity plans), and ISO 22301 requirements.

Price: [Request a quote](#)

Duration: 5 days

Built environment

The built environment is a complex interaction between design, construction, operations, and decommissioning, representing the four stages of the asset lifecycle.

In the face of these intricacies, you hold the key to creating liveable and workable spaces that benefit everyone.

Built environment

BIM Fundamentals

Understand the key principles and benefits of Building Information Modelling (BIM). This course explores how BIM drives efficiency and optimizes the entire project lifecycle, leading to greater whole-life value. Gain the knowledge to implement BIM in your organization and achieve a strong return on investment.

Prerequisite: N/A

Price: \$1795

Duration: 2 days

[Find out more](#)

BIM Fundamentals On-demand eLearning

Provide you with an understanding of why and how Building Information Modelling (BIM) supports lean principles to reduce waste in construction and asset management.

Prerequisite: N/A

Price: \$945

Duration: 8 hours

[Find out more](#)

BIM ISO 19650 Part 2: Project Delivery

Go beyond Building Information Modelling (BIM) fundamentals with this course on project information management for BIM Level 2, covering ISO 19650-2, information requirements, and supplier selection.

Prerequisite: For those with BIM knowledge (e.g. BIM Fundamentals) and construction project experience, especially in information management.

Price: \$1295

Duration: 1 day

[Find out more](#)

BIM ISO 19650 Part 3: Information Management in Operational Phase of the Assets

Implement ISO 19650-3 to optimize asset operations. This course is ideal for asset owners, operators, and maintainers.

Prerequisite: BIM knowledge (e.g. BIM Fundamentals) and asset information management experience.

Price: \$1295

Duration: 1 day

[Find out more](#)

Built environment

BIM ISO 19650 Part 4: Information Exchange

Learn how to leverage ISO 19650 for effective digital information exchange in Building Information Modelling (BIM), emphasizing the Common Data Environment (CDE) process and information verification for building trust.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.

Price: \$1295

Duration: 1 day

[Find out more](#)

BIM ISO 19650 Part 5: Security and BIM

Understand the role of the security manager, and how to identify security risks relating to built assets and their information in the Building Information Modelling (BIM) context.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.

Price: \$1295

Duration: 1 day

[Find out more](#)

BIM PAS 1192 Part 6: Health and Safety

Learn how to effectively exchange health and safety information in Building Information Modelling (BIM), emphasizing the importance of clear requirements and a digital plan.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.

Price: \$1295

Duration: 1 day

Food & retail

Embracing sustainability and safety is the bedrock of progress in the food and retail industry.

Unlock the potential for positive change in the food and retail sector by prioritizing sustainability through innovation and best practices.

Food & retail – Qualification pathway

The qualification learning pathway includes the following three essential courses, each fully accessible on-demand. This format offers unparalleled flexibility and the chance for individuals to study at their own pace, accommodating hectic schedules and varying shift work arrangements.

Food Safety Foundation On-demand eLearning

This course teaches food handlers and manufacturers essential food hygiene and safety practices. Learn to prioritize safety, identify hazards, and implement effective controls.

Prerequisite: N/A
Price: \$59
Duration: 2 hours

[Find out more](#)

HACCP Foundation On-demand eLearning

This course equips food handlers and manufacturers with the knowledge to implement HACCP principles, identify food hazards, and effectively control and monitor food production using the 12-step process.

Prerequisite: N/A
Price: \$59
Duration: 2 hours

[Find out more](#)

Allergen Awareness On-demand eLearning

Cover the causes of allergic reactions to food, symptoms of allergic reactions and the mechanisms for controlling allergens in food production.

Prerequisite: N/A
Price: \$59
Duration: 2 hours

Food & retail

FSSC 22000 v6 Understanding

Gain a thorough insight into food safety management systems and the key concepts and structure of FSSC 22000, key terms, definitions and the ISO standardized high level structure.

Prerequisite: N/A

Price: \$895

Duration: 1 day

[Find out more](#)

FSSC 22000 v6 Internal Auditor

This course equips you with skills to assess and report on process conformance under FSSC 22000, covering audit initiation, preparation, conduct, reporting, and follow-up tasks.

Prerequisite: Familiarity with FSSC 22000 and Food Safety Management Systems (FSMS) is recommended.

Price: \$1495

Duration: 2 days

[Find out more](#)

FSSC 22000 v6 Lead Auditor

This course updates you on food safety developments, empowering you to drive continual business improvement through effective audits aligned with FSSC 22000 and ISO standards.

Prerequisites: Solid understanding of FSSC 22000, ISO 22000, and relevant ISO 22002 prerequisite program. FSMS audit experience is recommended.

Price: \$3495

Duration: 5 days

[Find out more](#)

FSSC 22000 v6 Implementing the Changes

This course helps you gain an understanding of the changes of FSSC 22000 v6.

Prerequisite: Familiarity with FSSC 22000 v5.1.

Price: [Request a quote](#)

Duration: 4 hours

[Find out more](#)

Food Defence TACCP

This online Food Defence (TACCP) course teaches you how to identify and manage threats to your food business and protect your products. Learn from anywhere with live tutor interaction.

Prerequisite: N/A

Price: \$595

Duration: 4 hours

[Find out more](#)

Food Fraud VACCP

Gain insights into risk assessment methods like VACCP to ensure the genuineness of your products by evaluating your supply chain and business for potential food fraud risks and control measures.

Prerequisite: Prior knowledge of the global food supply chain and your organization's processes is beneficial.

Price: \$595

Duration: 4 hours

ISO 22000:2018 Food Safety Management Systems Requirements

This course provides a comprehensive understanding of ISO 22000 and its key concepts, including the standardized high-level structure, enabling you to interpret and apply these principles effectively within your organization's processes.

Prerequisite: N/A

Price: [Request a quote](#)

Duration: 1 day

[Find out more](#)

ISO 22000:2018 Food Safety Management Systems Lead Auditor

This course covers the key principles and practices of conducting effective FSMS audits aligned with ISO 22000 and ISO 19011, providing the knowledge and skills needed to lead successful audits from initiation through follow-up.

Prerequisites: Knowledge of ISO 22000, FSMS principles, ISO/TS 22002-1, HACCP, and relevant food safety legislation. Internal/lead auditor experience is beneficial.

Price: [Request a quote](#)

Duration: 5 days

[Find out more](#)

Implementing SQF Systems

This course helps align food safety programs with the SQF Code, enabling you to build and sustain a successful SQF System.

Prerequisites: HACCP Requirements qualification or HACCP Refresh qualification.

Price: \$1495

Duration: 2 days

[Find out more](#)

BRCGS - Food Safety Issue 9 For Sites

Gain a comprehensive understanding of the standard's general principles, compliance requirements, and the certification process, including necessary actions before, during, and after the audit.

Prerequisite: Download and review the BRCGS Global Standard for Food Safety Issue 9 from the BRCGS Bookshop to prepare for the course.

Price: [Request a quote](#)

Duration: 2 days

[Find out more](#)

Food & retail

HACCP Requirements

This course covers the CODEX HACCP's five initial steps and seven core principles for creating HACCP plans, enhancing your practical skills and leadership abilities for HACCP teams through current industry examples.

Prerequisite: Review the provided pre-course reading on CODEX General Principles of Food Hygiene.

Price: \$1495

Duration: 2 days

[Find out more](#)

HACCP Refresh

This course aims to refresh and update your food safety expertise, focusing on Codex HACCP principles to effectively manage a HACCP food safety plan.

Prerequisite: Attendees must have completed HACCP training within the past three years.

Price: \$695

Duration: 6 hours

[Find out more](#)

Food Safety Internal Auditor

Elevate your audits beyond compliance with our specialized food industry course, designed to refine internal audit processes, meet customer standards, and enhance food safety practices.

Prerequisite: Knowledge of the principles of FSSC 22000 and Food Safety Management Systems (FSMS).

Price: \$1495

Duration: 2 days

[Find out more](#)

Allergen Management and VITAL

Understand how you can manage allergies in manufacturing and how you can use the VITAL tool to access the potential impact of allergen cross-contact and present allergen advice consistently.

Prerequisite: N/A

Price: \$795

Duration: 1 day

See those standards for guidance on other training.

Healthcare/Medical devices

To meet stakeholders' demands for sustainability, healthcare, pharmaceutical and healthtech organizations must address the environmental impact of product lifecycles, embrace secure technology, ensure care quality, and increase access of medicines and care globally to shape the future of the industry.

Healthcare/Medical devices

ISO 13485:2016 Medical Devices Requirements On-demand eLearning

Learn the essentials of ISO 13485 and how it interacts with ISO 9001 for effective quality management in the medical device industry.

Prerequisite: N/A

Price: \$645

Duration: 4 hours

[Find out more](#)

ISO 13485:2016 Medical Devices Clause-by-Clause

Increase your understanding of ISO 13485 scope, structure and requirements and identify the systems needed to implement an effective Quality Management System in your organization.

Prerequisite: N/A

Price: \$2195

Duration: 2 days

[Find out more](#)

ISO 13485:2016 Medical Devices Internal Auditor

Learn best practices to improve your QMS audit process compliance to ISO 13485 and ISO 19011.

Prerequisite: A basic understanding of ISO 13485 and its application to medical device Quality Management System is recommended.

Price: \$2195

Duration: 2 days

[Find out more](#)

ISO 13485:2016 Medical Devices Implementation

Master ISO 13485 and learn how to implement a compliant Quality Management System (QMS) for medical devices.

Prerequisite: ISO 13485 and QMS fundamentals (see Clause-by-Clause course).

Price: \$2195

Duration: 2 days

[Find out more](#)

ISO 13485:2016 Medical Devices Lead Auditor

Gain the skills to perform effective and compliant QMS audits, from planning to follow-up.

Prerequisite: Knowledge of ISO 9001 and ISO 13485 (see related courses). Auditing experience is helpful.

Price: \$4695

Duration: 5 days

EU Medical Device Regulation (MDR) 2017/745 – QMS Auditor

Become proficient in EU MDR QMS audits. Master the audit process, from planning to follow-up, and ensure ongoing compliance with EU MDR (2017/245).

Prerequisites: Medical device auditing experience (especially ISO 13485) and strong EU MDR knowledge. An ISO 13485 auditor course is recommended.

Price: \$2995

Duration: 3 days

[Find out more](#)

Requirements of the Medical Device Regulation (MDR) for CE Marking

Learn about the key requirements, concepts, and the overall process for CE marking under the Medical Devices Regulation (MDR). Delivered in an eLearning format

Prerequisite: Basic understanding of medical devices or quality management is helpful.

Price: \$2195

Duration: 1 day

Implementation of Medical Device Regulation (MDR) for CE Marking

You will learn all the requirements needed for conformity assessment, how to fulfil technical documents and how to plan post-market activities required by the MDR. By the end of the course, you'll be able to put this knowledge to work in your organization.

Prerequisites: EU MDR knowledge and experience with medical device QMS, EU device legislation, or pre/post-market activities.

Price: [Request a quote](#)

Duration: 3 days

[Find out more](#)

Technical Documentation and Conformity Assessment for Medical Devices eLearning

This course will help you ensure auditable technical documentation meets regulatory requirements, while reducing certification delays and costs by providing complete, compliant documentation and minimizing audit questions and nonconformities.

Prerequisite: N/A

Price: \$645

Duration: 4 hours

[Find out more](#)

Awareness of the Medical Device Regulation (MDR) On-demand eLearning

This short course will focus on how the MDR prioritizes safety, effectiveness, and the highest standards of public health within the EU.

Prerequisites: N/A

Price: \$79

Duration: 30 minutes

[Find out more](#)

Requirements of the Medical Device Regulation (MDR) On-demand eLearning

Increase your understanding of MDR key requirements to place your device on the market.

Prerequisite: N/A

Price: \$645

Duration: 5 hours

Healthcare/Medical devices

Technical Documentation for the Medical Device Regulation (MDR)

Learn best practices to improve your QMS audit process compliance to ISO 13485 and ISO 19011.

Prerequisite: A basic understanding of ISO 13485 and its application to medical device QMS is recommended.

Price: \$2195

Duration: 1 day

[Find out more](#)

The Hidden Stings of The Medical Device Regulation (MDR) – Annex VII On-demand eLearning

Understand the key requirements of Annex VII of the EU MDR. Learn why notified bodies are adopting a more detailed approach to audits than organizations may have experienced in the past.

Prerequisite: N/A

Price: \$325

Duration: 1 hour

[Find out more](#)

The Obligations for Economic Operators within the Medical Device Regulations (EU MDR 2017/745) On-demand eLearning

Provides you with the key requirements for economic operators within the Medical Device Regulations (MDR).

Prerequisite: N/A

Price: \$325

Duration: 1 hour

[Find out more](#)

Requirements For Risk Classification in The Medical Device Regulation (EU MDR 2017/745) On-demand eLearning

Gain a comprehensive understanding of risk classification under the EU MDR, including the rules, the reasons for classification, and the impact of intended purpose.

Prerequisite: N/A

Price: \$325

Duration: 1 hour

[Find out more](#)

Introduction to Medical Device Software

This intensive course provides in-depth knowledge of the essential requirements for preparing technical documentation for medical devices under the EU MDR.

Prerequisite: Basic understanding of European Medical Device Regulation (MDR).

Price: \$1895

Duration: 1 day

Healthcare/Medical devices

Awareness of the In Vitro Diagnostic Regulation (IVDR) On-demand eLearning

This course provides a complete guide to the European IVD regulatory framework, CE marking, and achieving IVDR compliance for market success. Learn to navigate the IVD landscape and launch your product with confidence.

Prerequisite: N/A

Price: \$79

Duration: 30 minutes

[Find out more](#)

Requirements of the In Vitro Diagnostic Regulation On-demand eLearning

Understand IVD risk classification and conformity assessment routes under the EU MDR, including technical documentation, performance expectations, clinical evidence, and post-market requirements.

Prerequisite: N/A

Price: \$645

Duration: 4.5 hours

[Find out more](#)

Implementation of IVDR for CE marking On-demand eLearning

Implement a compliant QMS and prepare the technical documentation needed to obtain a CE mark for your IVD under the EU IVDR.

Prerequisites: IVDR knowledge (e.g. through our IVDR courses) and familiarity with EU IVD legislation or experience with pre/post-market activities.

Price: \$1395

Duration: 10 hours

[Find out more](#)

Requirements of the In Vitro Diagnostic Regulation

Increase your understanding of IVDR key requirements to place your in vitro diagnostic medical device on the market.

Prerequisite: N/A

Price: \$645

Duration: 4.5 hours

Healthcare/Medical devices

ISO 14971:2019 Risk Management Requirements On-demand eLearning

Understand how ISO 14971 impacts decision-making and improves risk management in medical device manufacturing.

Prerequisite: Some QMS experience for medical devices and awareness of device development, quality assurance, and ISO 13485 is recommended.

Price: \$645

Duration: 4 hours

[Find out more](#)

ISO 14971 Risk Management For Medical Devices Requirements

Learn the key principles of risk management according to ISO 14971 and how it interacts with QMS standards and EU MDR/IVDR.

Prerequisite: Familiarity with medical device QMS, development, quality assurance, and ISO 13485.

Price: \$1895

Duration: 2 days

[Find out more](#)

Clinical Evaluation For Medical Devices

Master the clinical evaluation process for medical devices, including key requirements, development stages, documentation, and post-market activities.

Prerequisites: Familiarity with your device, clinical safety, performance, and relevant MDR annexes (I, XIV, XV), MEDDEV 2.7.1 Rev. 4, and MDCG guidance.

Price: [Request a quote](#)

Duration: 1 day

[Find out more](#)

Manufacturing Process Validation for Medical Devices: Introduction to Concept and Methods

Understand the evidence needed for validating manufacturing processes.

Prerequisite: Medical device QMS experience and awareness of device development and quality assurance.

Price: \$1895

Duration: 1 day

“Tutor was knowledgeable, made everything easy to learn and used his experience of real-life situations to introduce the validity of each lesson”

BSI course delegate

Client stories

Stephanie Tracey

SMARTD Chillers Pty Ltd

It was a great course run by a great trainer. These courses can have a lot of information and run in such a short time, but it was great.

Michael Gibbs

North Power NZ

The tutor's teaching style kept the team engaged throughout and everyone left the course with a good understanding of ISO 55001 and how their individual roles fit into the framework.

Malcolm Bell

Public Utilities Board

The tutor had prepared well for the session. But no amount of diligent preparation would be enough to fully appreciate the challenges of the context, and displayed the necessary flexibility, subject-matter knowledge, and cunning, to respond to and engage with our challenges.

Michael Gibbs
North Power NZ

//

I engaged George to carry out an ISO 55001 requirements training course for our team, and it exceeded my expectations. What could have been a dry subject was transformed into an engaging and highly relevant experience.

Meet our expert trainers

Our tutors combine extensive industry expertise with genuine passion and personality. This unique approach creates a relaxed, friendly, and comfortable learning environment, ensuring that you not only gain knowledge but also enjoy the journey.

Edita Rokov

Edita is a highly experienced trainer with over 35 years of expertise in laboratory and quality management. Her comprehensive knowledge spans a wide range of subjects, including quality management, auditing practices, and various ISO standards such as ISO/IEC 17025, Good Laboratory Practices, Good Manufacturing Practices, and ISO 15189.

Throughout her extensive career, Edita has gained exceptional knowledge in all aspects of laboratory operations, from quality systems to technical practices that support and influence laboratory work. This deep understanding allows her to provide insightful training and guidance to others in the field.

George Assaad

George has extensive experience in developing, implementing and maintaining management systems for clients across a range of industries.

George's background in Engineering provided him with systematic thinking which is an important attribute for auditors and consultants. George is also very passionate about training and has years of experience as a facilitator.

George's previous employers include Anitech Consulting, Pristine Services, The University of Melbourne and CSIRO.

Get in touch today

Our expert team can help identify the right courses and qualification pathways to help build skills, knowledge and expertise to meet your goals.
