About BSI

Founded in **1901**

Impact for a fair society and a sustainable world

A purpose-led organization

Our purpose is shaped by our foundations, reflecting our ambition to make a positive impact for people and the planet. For more than 120 years, BSI has benefitted the world in a profound and unique way. Our independence, global reach and access to leading-edge experts sets us apart. Due to the unique way we are incorporated, we reinvest our profits to foster progress and partnership, increasing trust between consumers, governments and organizations. Ultimately, we help business and society thrive together accelerating progress towards a fair society and a sustainable world.

National Standards Body

Trusted to build consensus-based standards that drive best practice.

"We're an influential, independent voice for individuals, organizations and society, uniquely placed to drive progress towards a sustainable world."

Incorporated by Royal Charter

The Charter is an enabling document that sets our purpose and defines our range of activities.

"First awarded in 1929, the Royal Charter sets out our objectives: to simplify, standardize, and improve business performance."

A History of Looking Forward

The Kitemark was registered two years later, and our Royal Charter was first granted in 1929.

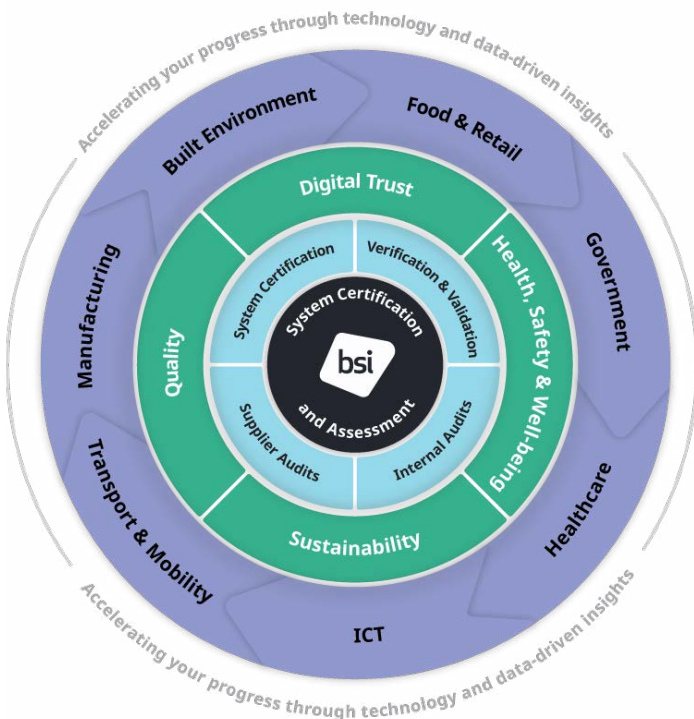

"Our story begins in 1901 when work on the first standard began. Since then, we've existed to have a positive impact on society."

Services and solutions

5518 colleagues and 12,200 technical experts

Building Trust, ensuring progress and a sustainable future

We offer comprehensive assurance solutions designed to instill confidence, mitigate risk, and drive progress for your organization.

Reliable expertise

Our specialists have a deep understanding of industry standards, regulations, and best practices, creating long-term value for your organization.

Integrated solutions

From assessment and certification audits to internal audit and supplier audit programmes, we provide holistic assurance solutions across various industries.

Technology integration

We harness technology to streamline processes, boost accuracy, and enhance the audit experience. Our proprietary tools enable us to deliver more efficient and thorough assurance solutions.

Data-driven insights*

We analyze historical data and use predictive modeling to help you foresee and prevent risks. Our proactive risk management keeps you ahead of threats, safeguarding your reputation and assets.

*Beta version, available for ISO 9001 clients only. To be expanded to other schemes.

Digital Trust: Accelerating digital trust and transformation

Ensuring digital ecosystems build trust is key to accelerating progress. We will help you make digital investments that not only support business strategy but maximize impact and opportunity.

How BSI can help

BSI is your trusted partner in progress, dedicated to shaping thinking on important issues and helping your organization accelerate progress towards a sustainable world. As you look to do so, there are many ways we can help.

Training

We support you with a range of qualifications and training courses. Multiple delivery formats are available to suit your busy schedules: in-person classroom; virtual instructor-led; on-demand eLearning; and in-house.

Certification

Certification from BSI, as a reputable certification body, demonstrates your organization is committed to meeting high standards while enhancing your organization's credibility and reputation.

Software tools and solutions

BSI Connect is the integrated technology solution hosting information such as status of assessments, corrective action plans and certificates - visible across your organization supporting decision making.

Gap assessment

Book a gap assessment with us and we will take a closer look at your existing management system or best practices. We will provide you with a report to help you identify the areas that are inline with the standards, and those areas that need further improvement, so you can develop a clear plan of action.

Internal and Supplier Audits*

Working with you, BSI can offer audits tailored to meet your organization's specific requirements, both internally and across your supply chain, providing you insight against your best practice criteria. You'll be able to get the transparency and confidence required to build trust and resilience in your organization and protect your brand.

*Limitations may apply if pursuing BSI certification services.
