Welcome

At BSI, we help you build skills that create value for your organization and accelerate your career growth.

Our training courses, spanning Digital Trust, Health & Safety, Quality Management, Sustainability, and more, are available in-person, online, or on-demand, and lead to globally recognized BSI Qualifications.

In 2026, we're expanding our regional offering to give you even more choice. Our expert tutors bring each subject to life, supported by regularly updated materials that ensure quality and relevance. We also leverage the latest learning technologies to deliver training that's flexible, engaging, and effective.

We're committed to keeping you informed about standards under review and providing training that empowers you to adapt with confidence.

We look forward to supporting your learning journey.

Chris Wright
EMEA Training Director, BSI Academy

Flexible learning, trusted expertise

People learn in different ways, so we've devised a range of delivery formats to suit all needs.

Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning – we can provide a format that works for you.

In 2025, we achieved an outstanding **NPS score of 75**, a testament to the high-quality learning experience we provide across a variety of delivery methods.

Live online training

Learn from the comfort of your home or a quiet space, for convenience

On-demand eLearning

Self-paced, online, available 24/7 – for complete flexibility

In-house training

In-person or online to suit your organization's needs

Enterprise Training Solutions

Combining courses and formats to help you achieve your strategic objectives

Validate skills with a BSI Qualification

As the creator of the world's leading standards, we offer a comprehensive suite of carefully-assessed qualifications to help you develop expertise to the highest level.

Available across three levels, from practitioner to certified professional, you can progressively refine your skills.

Practitioner

Show you have a detailed understanding of a given topic or standard.

Professional

Provide more value by adding improvement initiatives, tools and techniques to your skillset.

Certified Professional

Prove your qualified skills are up-to-date and in practice by having your qualification certified.

BSI Qualifications are available for:

- Quality Management ISO 9001
- Artificial Intelligence ISO/IEC 42001
- Business Continuity ISO 22301
- Energy Management ISO 50001
- Environmental Management ISO 14001
- Information Security ISO/IEC 27001
- Service Management ISO/IEC 20000-1
- Greenhouse Gases (GHGs)
- Health & Safety ISO 45001
- Medical Devices ISO 13485
- BIM ISO 19650
- Food Safety

The benefits of Qualifications

Validate your skills and experience

Our qualifications build on existing skills and recognise experience to increase or validate your expertise.

Build your transferrable skills and become more resilient

Qualifications underpin the development of transferable skills such as report writing, communication, questioning skills, problem solving.

Demonstrate your initiative and commitment to self-development in your job role

Achieving a qualification demonstrates professionalism, supports career growth, and equips you with skills that drive motivation, retention, and positive change within your organization.

Build your confidence in applying standards in real-world settings

The learning and achievements gained during a BSI qualification will increase your confidence in your job role and have a positive impact on the work you produce.

Achieve a globally recognised Mark of Trust upon completing your qualification

BSI is recognised globally as one of the most experienced independent assessors of best practice. Once you earn a prestigious BSI Mark of Trust, you can use it on your business card, social media and CV, showcasing your new skills and expertise with our name next to yours.

Stay Ahead ISO 9001 & ISO 14001 Transition Training

ISO 9001 and ISO 14001 - two of the world's most widely used management system standards - are both being updated for 2026, with new editions designed to strengthen leadership, culture and sustainability.

Wherever you are on your certification journey, our transition training helps you understand the key changes and apply them with confidence.

ISO 9001:2026

The Final Draft International Standard (FDIS) is published ahead of a 2026 release. It brings a sharper focus on quality culture, ethical leadership and opportunity-based planning, plus a brand-new Annex A for added clarity.

ISO 14001:2026

Published in April 2026 and available now. The new edition strengthens leadership accountability across all roles, introduces life cycle thinking into your EMS scope, and sharpens how emergency situations are identified and managed.

Ready to transition? Contact a BSI expert today to book your ISO 9001 or ISO 14001 transition training

Learn how to apply process improvement auditing, covering reactive, incremental, and stepped change improvements)

Anti-bribery ISO 37001

ISO 37001 specifies a series of measures your organization can implement to help prevent, detect and address bribery.

Process Improvement

Learn the approaches and tools necessary for effective process improvement, and how to deploy a process improvement framework that works effectively for your organization.

Modern Slavery BS 25700

Gain knowledge of modern slavery, introducing a risk-based approach to managing the risk outlined in BS 25700.

Earn a BSI Qualification, available for ISO 22301, ISO 42001, and more

Food and retail

For businesses and professionals alike, the food industry of today is a sector of vast opportunity.

Demonstrate your commitment to food safety and standards across the supply chain with our courses and qualifications.

BRCGS Global Standard

Developed with the Standard Managers and in line with new issues of the Global Standards, BRCGS training courses provide delegates with the most up-to-date information.

ISO 22000 Food Safety

Our ISO 22000:2018 Food Safety Management Systems courses are activity-based, resulting in a deeper understanding of the material and a greater, immediate impact on job performance.

FSSC 22000 Food Safety

Food Safety System Certification 22000 (FSSC 22000) is a robust, ISO-based, internationally accepted certification scheme for auditing and certification of food safety.

Hazard Analysis Critical Control Points (HACCP)

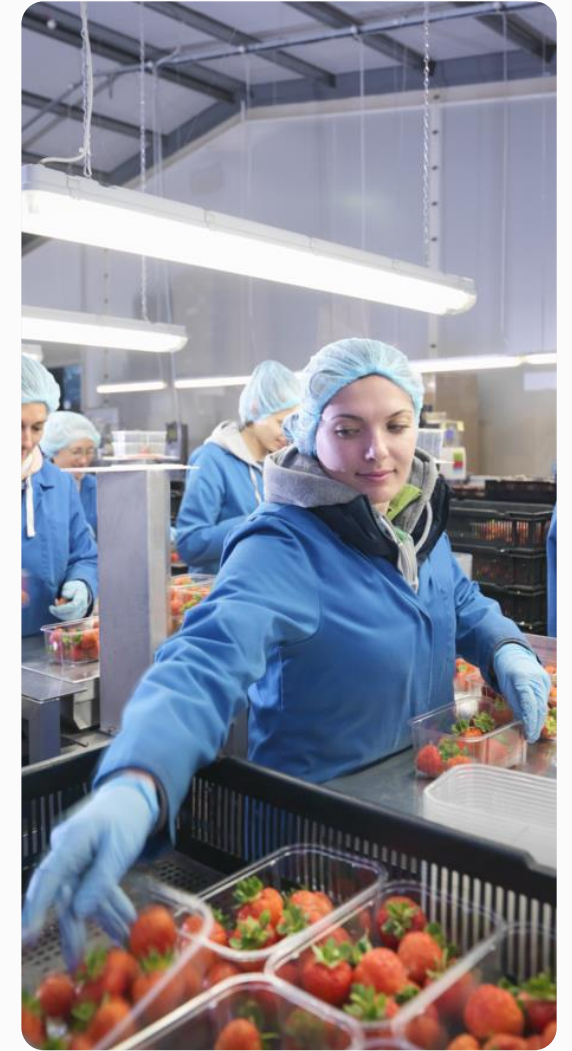

HACCP is a risk management tool and is primarily used to manage food safety risk, enabling you to identify hazards and implement internationally recognized food safety hazard controls to manage the risks.

Food safety culture

Encouraging the right behaviours and actions within a food organization has become known as a culture of food safety. While the concept isn't new, the path to a culture of food safety hasn't always been clear.

Food Safety Foundation Qualification

Food Safety Foundation is suitable if you are new to a role in food and need to understand the principles of food safety and hygiene, HACCP and Allergens.

Healthcare and life sciences

Embrace a future of healthcare excellence, solving global challenges in life sciences, care delivery, and bringing a successful product to market within this highly regulated sector.

We are:

- A designated EU Notified Body
- A UK Approved Body
- An accredited ISO 13485 certification body
- A recognized Auditing Organization under the Medical Device Single Audit Program (MDSAP)
- A globally recognized certification body

Popular

Medical Devices Quality Management ISO 13485

Familiarize yourself with ISO 13485 and understand how to implement it and/or audit your QMS.

CE Marking

- Awareness of the IVDR
- Requirements and implementation of the MDR for CE Marking
- Requirements and implementation of the IVDR for CE Marking
- IVDD to IVDR Transition
- Introduction to Medical Device Software

NEW!

Healthcare Quality Management ISO 7101

Establish a sustainable, high-quality health system and emphasize a people centred approach.

Global market access

- MDSAP Fundamentals and Readiness

Specialist training courses

- EU Medical Device Regulation (MDR) 2017/745 – QMS Auditor
- Clinical Evaluation for Medical Devices
- ISO 14971:2019 Risk Management for Medical Devices: Requirements
- Manufacturing Process Validation for Medical Devices: Introduction to Concepts and Methods
- Performance evaluation and clinical evidence for In Vitro Diagnostics (IVDs)
- Post Market Surveillance and Vigilance under MDR and IVDR
- Technical documentation for In Vitro Diagnostic Devices (IVDs)
- Technical documentation for the Medical Device Regulation (MDR)

Earn a BSI Qualification, available for ISO 13485, IVDR and MDR.

Transport and mobility

Future-proof your business with training to improve quality management, protect your supply chain, manage your environmental impact and build organizational resilience for today, for tomorrow and beyond.

Our wide range of training in quality, safety, sustainability and information security, gives you the skills and confidence to make a difference.

Automotive

Improve quality management, optimize supply chain, protect your employees, and build resilience.

Automotive Training Courses IATF 16949

Achieve best practice when designing, developing, manufacturing, installing or servicing automotive products.

Vehicle Cybersecurity ISO/SAE 21434

Gain the skills to manage cybersecurity in automotive engineering.

Introduction to VDA ISA based on TISAX®

Implement, operationalize, and continuously improve an information security management system (ISMS).

Aerospace

We have the expertise and global coverage to train and certify to the AS 9100 series of quality standards.

Quality management AS 9100

Explore training courses covering:

- Awareness
- Requirements
- Implementation
- Auditor / Lead auditor
- Management Briefing

Aviation Maintenance AS 9110

Show the aviation industry and key stakeholders that your organization prioritizes the quality and safety of its products.

Aerospace Quality AS 9120

Ensure the highest standards for aerospace components.

Transport and mobility schedule

Aerospace (AS 9100)	DAYS	JUL	AUG	SEP	OCT	NOV	DEC

<u>Production Part Approval Process (PPAP)</u>	1	6				9	

Built environment and construction

Across the built environment, from housing, industrial, commercial, hospitals and schools, to civil engineering, infrastructure and urban spaces, our courses are designed to help you build resilience, embrace new technology, and be fit for the future.

Popular

Building Information Modelling (BIM)

Learn the systems, tools, and techniques to embed best practice BIM. From fundamentals to Part 6, and everything in between. Our courses will help you to understand the opportunities that collaboration brings within a digital environment.

Earn a BIM Qualification, validating expertise.

Carbon Management in Buildings and Infrastructure PAS 2080

Learn the requirements of PAS 2080 and help enhance your organization's environmental reputation in support of your sustainability goals.

Environmental management ISO 14001

Explore how to operate more sustainably and join the carbon reduction initiative.

Health and safety ISO 45001

Gain the confidence and competencies to mitigate occupational and health risks to all stakeholders.

Information security ISO/IEC 27001

Protecting personal records and commercially sensitive information is critical.

//

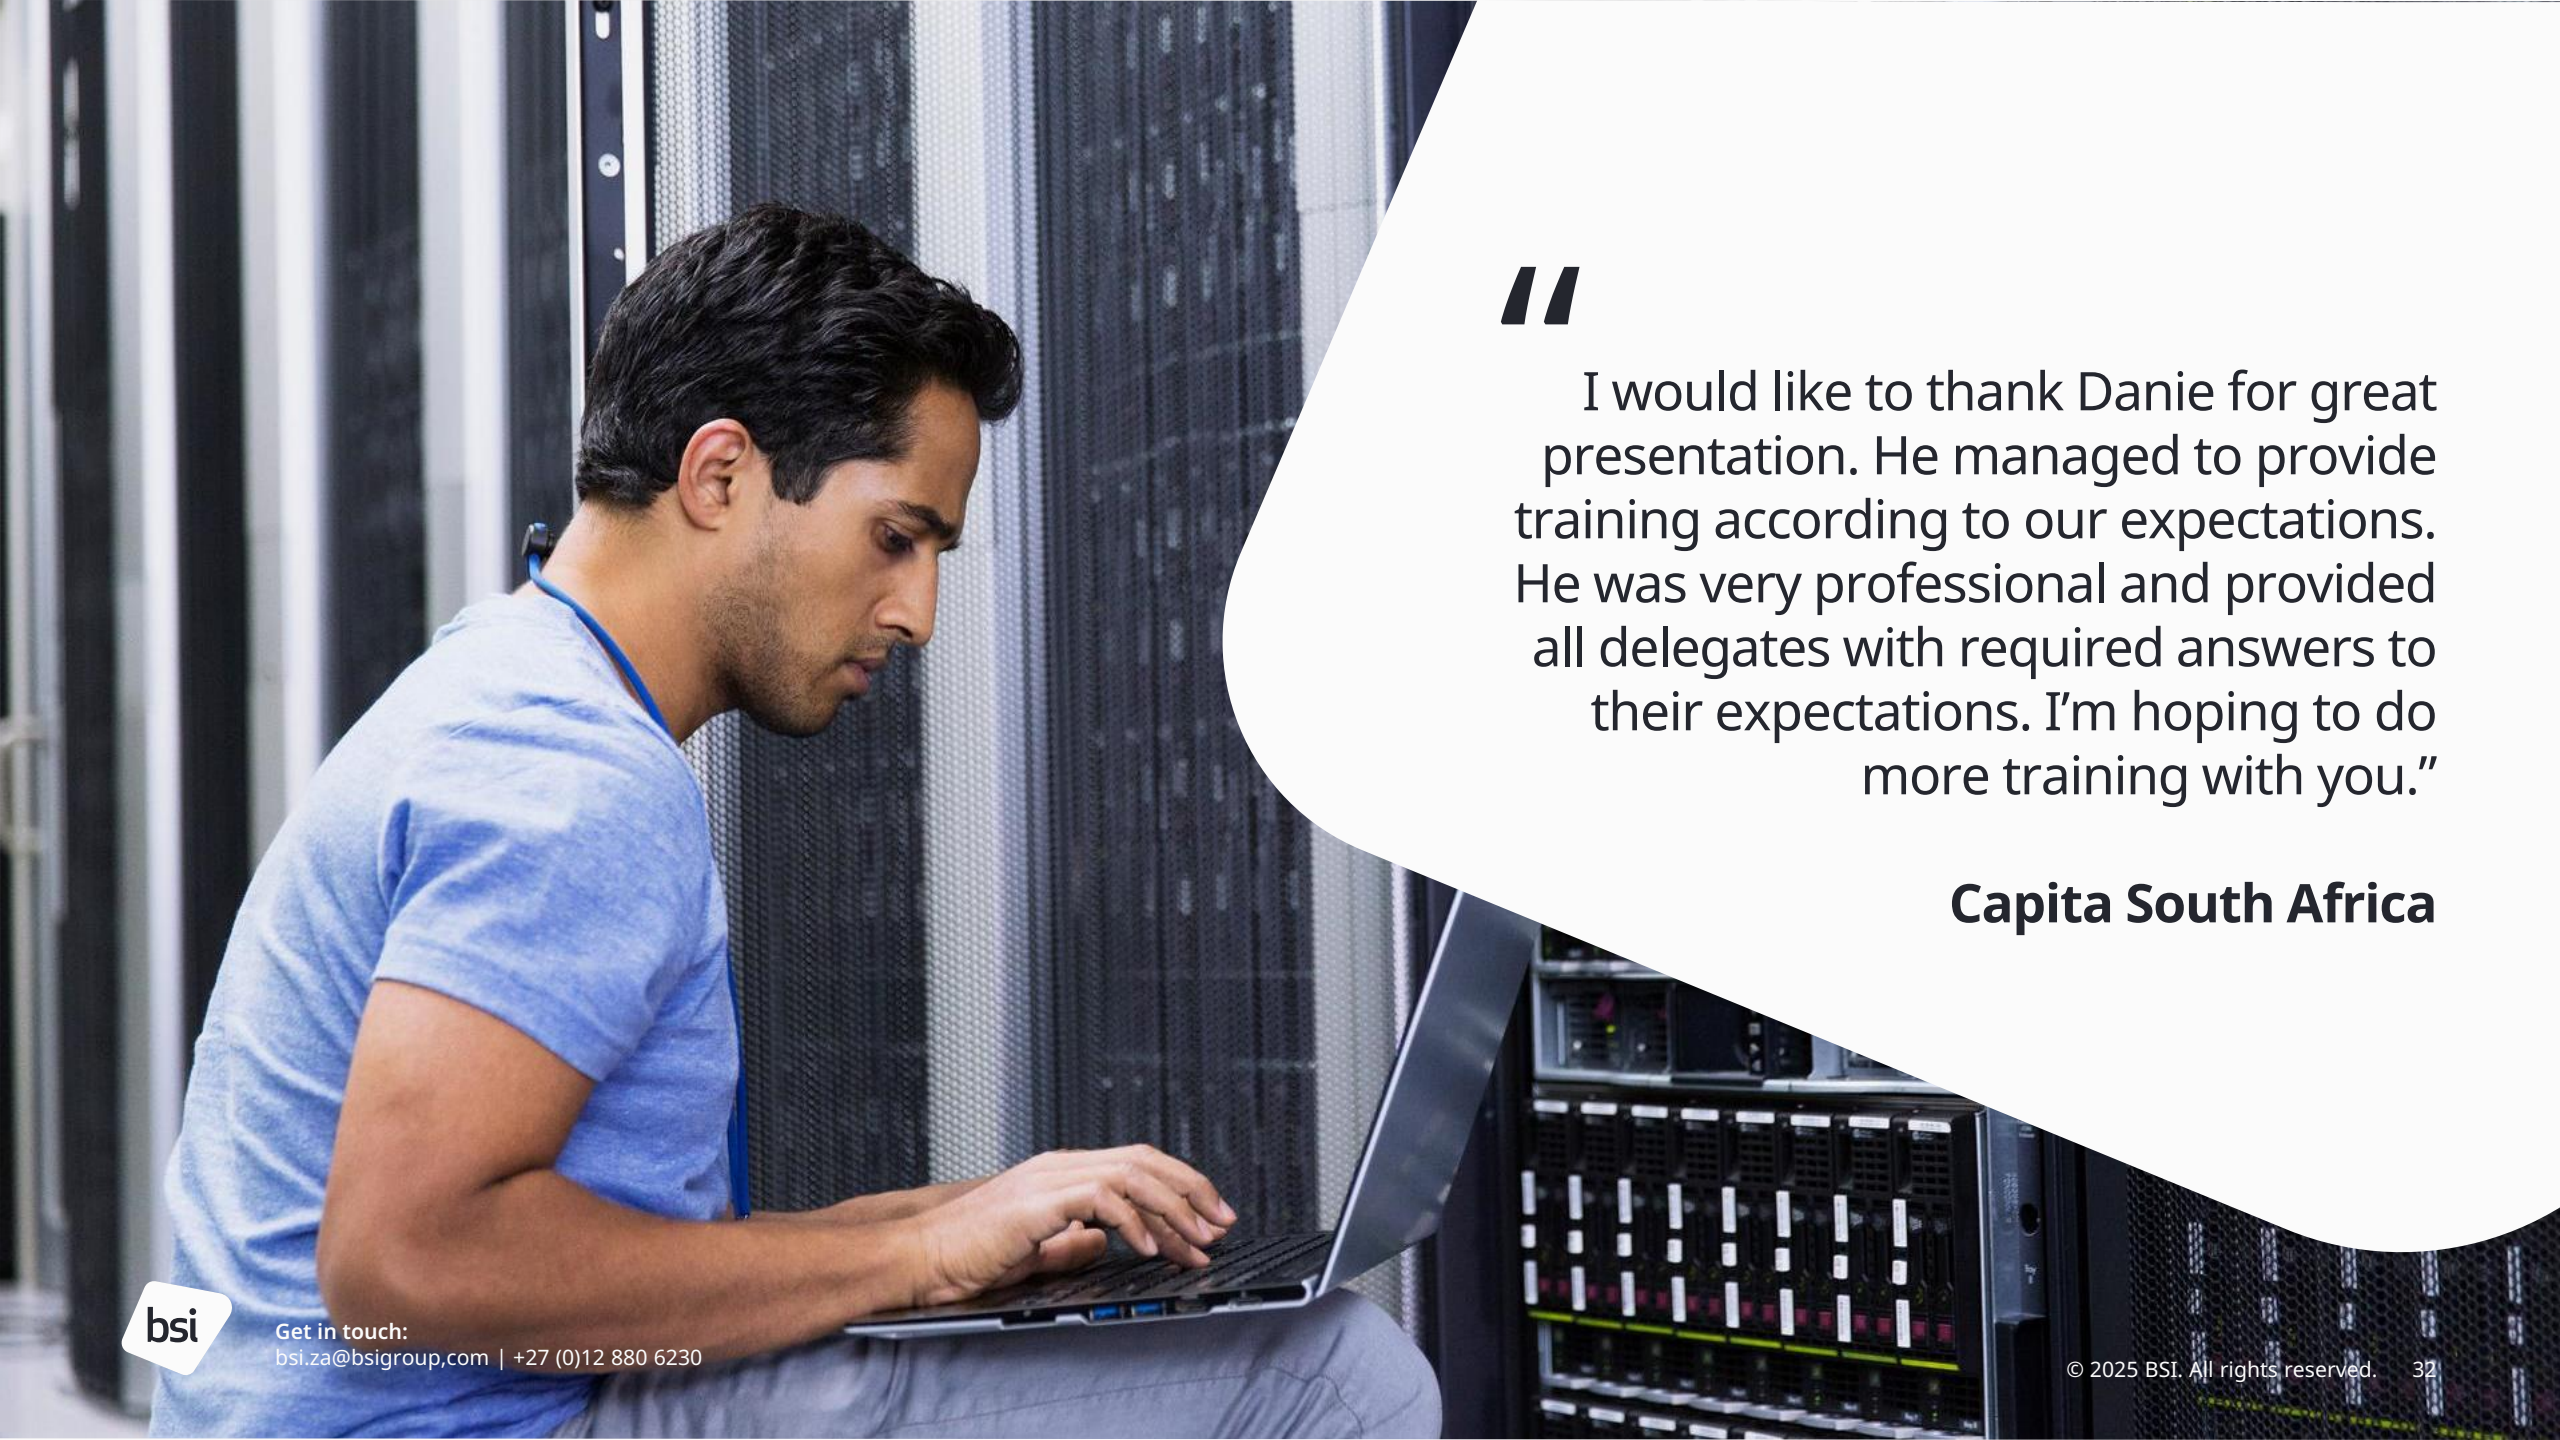

I am profoundly appreciative of the exceptional professionalism, technical acumen, and unwavering dedication that BSI Group has demonstrated in facilitating our pursuit of internationally recognized standards of excellence."

CEO of Laeveld Agri-Werke (Pty) Ltd

Get in touch:
bsi.za@bsigroup.com | +27 (0)12 880 6230

A man with dark hair, wearing a light blue t-shirt, is seated and working on a laptop. He is positioned in front of a server rack, which is filled with various electronic components and cables. The background is slightly blurred, emphasizing the man and his work.

//

I would like to thank Danie for great presentation. He managed to provide training according to our expectations. He was very professional and provided all delegates with required answers to their expectations. I'm hoping to do more training with you."

Capita South Africa

//

The presenter was excellent. The content was well structured, and precise with real-life examples. I enjoyed the training; it exceeded my expectations."

Konkola Copper Mines, Zambia

Drive innovation, productivity, and resilience

Standards are blueprints for excellence, providing robust strategies for minimizing risk, ensuring safety, and championing sustainability.

Crafted meticulously by seasoned industry experts, standards represent the pinnacle of organizational best practices.

When implemented, they serve as robust rules, clear guidelines, or precise definitions that businesses can lean on to ensure operational excellence.

Browse available standards
