

# BRC Global Standard for Food Safety Issue 9 – Lead Auditor – International

Your partner  
in progress

## Course descriptive

The BRCGS is a Global Food Safety Initiative (GFSI) recognized scheme. The popular Standard is accepted as a benchmark for food safety worldwide and is often a core requirement of the supplier approval process for food retail and manufacturing.

This BRCGS lead auditor course delivered by BSI is designed to help you gain a firm understanding of the standard and learn how to undertake a BRC Global Standards audit. Auditing techniques will be practiced and developed, to include the auditor competency skills required of GFSI scheme auditors.

## Pedagogical objectives

This course will help you:

- Identify the aims and benefits of a BRCGS audit
- Interpreted BRCGS protocol and requirements for audit application
- Plan, conduct and follow-up auditing activities that add real value
- Access the latest auditor techniques and identify appropriate use
- Build stakeholder confidence by managing processes in line with the latest requirements

## Skills to be acquired

You will gain the knowledge to:

- Describe the purpose of the BRC Global Standards scheme, protocol and directory
- Explain the requirements of the Standards and how compliance can be demonstrated
- Explain the role of an auditor to plan, conduct, report and follow up a FSMS audit in accordance with BRCGS
- Describe the food safety auditor competencies as defined by GFSI

You will gain the skills to:

- Plan, conduct, report and follow up an audit of a FSMS to establish conformity with BRCGS
- Apply effective auditing techniques

## Targeted audience

- Certification body auditors or new auditors seeking registration
- Technical and quality managers who wish to gain an in-depth understanding of the audit process
- Consultants

## Prerequisites

You must have prior working knowledge of quality management systems and auditing within the relevant manufacturing sector and have completed an HACCP course of at least two days duration.

## Duration

5 days – 35 hours

## Pedagogical, technical and framing means

Course materials including:

- Introduction to the training, detailed program and security assignments
- Course presentation, theory and activities/ role plays
- Answers to the activities
- Videos
- Additional documents, distributed during the sessions, to use for the activities
- Attendance sheet to be signed

### Assessment specifics

- Questionnaire to assess the knowledge at the end of the training
- Customer survey

### What is included?

- Course materials, provided electronically
- Letter of attestation
- Official certificate
