Course descriptive

Auditing is crucial to the success of any management system. As a result, it carries with it heavy responsibilities, tough challenges and complex problems. This five-day intensive course trains ISMS auditors to lead, plan, manage and implement an Audit Plan. It also empowers them to give practical help and information to those who are working towards certification and also provides the knowledge and skill required to carry out 2nd party auditing (suppliers and subcontractors).

Provide knowledge and skills required to perform 1st, 2nd and 3rd party ISMS audits against ISO/IEC 27001; in accordance with ISO 19011 and ISO 17021, as applicable.

Pedagogical objectives

Effective auditing helps to ensure that the measures you put in place to protect your organization and your customers are properly managed and achieve the desired result.

Skills to be acquired

Explain the purpose and business benefits of:

- Information Security Management Systems (ISMS), ISMS standards
- Management system audit
- Third-party certification

Explain the role of an auditor to plan, conduct, report and follow up an Information Security MS audit in accordance with ISO 19011 (and ISO 17021 where appropriate).

Have the skills to: Plan, conduct, report, and follow up an audit of an ISMS to establish conformity (or otherwise) with ISO/IEC 27001/2, ISO 19011 (and ISO 17021 where appropriate)

Targeted audience

This course is suitable for those wishing to Lead audits of ISMS in accordance with ISO/IEC 27001:2013 (either as a 2nd party, or 3rd party auditor), those wishing to learn about effective audit practices.
