Course descriptive

Be confident that you can efficiently meet stakeholder expectations with a robust Information Security Management System (ISMS). Work with our world-class information security trainers on our Lead Implementer Training Course to ensure your ISMS is ISO 27001 compliant.

By training with us you will gain an internationally recognized qualification that enables you to implement exceptional information security management standards in your organization. In becoming a lead implementer, you can also set the highest standard of information management tailored to your organization.

You will also take away sound knowledge of ISO 27001, the ISMS framework, how best to apply this.

Pedagogical objectives

- Gain an understanding of effective information security management throughout an organization and therefore protection of your information (through integrity, confidentiality and availability) and those of your interested parties
- Develop vital processes, policies and procedures that can be put into practice immediately
- Create the framework for your own Information Security Management System (ISMS)
- Gain knowledge to develop your ISMS framework and build awareness and support for information security across your organization
- Be confident that you have the capability to protect your business and meet stakeholder expectations
- Encourage continuous professional development across your organization
